

# MUTINY AT MINES COMES TO END

## UPRISING OF CONVICTS IN ALA. QUELLED

### TAX ISSUE KEPT IN FOREFRONT

#### IMPORTANCE OF EQUALIZATION IS EMPHASIZED

**Sixty-Six Mutineers Surrender After Defying Guards by Throwing Dynamite—Much Damage Done—To Make Investigation.**

(Associated Press Leased Wire)  
MONTEVALLO, Ala., Jan. 12.—Damage amounting to \$30,000 was caused by sixty-six mutinous state convicts who last night surrendered after a three-day strike at mines of the Alabama Coal & Iron Co. today by D. A. Thomas, president of the company.  
A rigid inquiry was under way in connection with the strike, with members of the state board of administration on the ground. The convicts who composed the day shift took possession of the pit yesterday morning and until midnight defied guards to enter. The strike against authority was ended because of lack of light when a squad of eighteen guards descended to be met by forty convicts in a group who tossed dynamite at the posse. The guards used their guns, firing over the heads of the convicts. Decision to end the mutiny was agreed upon among the convicts and they left their stronghold.

(Associated Press Leased Wire)  
MONTEVALLO, Ala., Jan. 12.—Officials of the state convict board will begin an investigation today of the mutiny at the Alabama Coal & Iron Co. mines here yesterday which ended with the surrender of the mutineers. Guards late last night, L. A. Boyd, chairman of the state convict board, Dr. F. F. Blair, physician of the convict board, and C. E. Davis, state prison inspector, arrived here last night and will aid in the investigation.  
Dynamite was used freely by the convicts while in the mines and a part of the machinery was reported wrecked. Officials would not make an estimate of the damage pending a full investigation in the mines today. Coal mining will be suspended for a few days until repairs are made. Chairman Boyd declined to say what punishment, if any, would be administered to the mutineers.  
Sixty-six convicts participated in the outbreak at 7:30 o'clock yesterday morning. As they entered the mines they warned wardens that there would be no bloodshed. They came out shortly before midnight after they had defied efforts of prison officials to induce them to surrender and hurled dynamite in their direction. Owners of the mine are said to have been told that those who went into the mine to plead with the prisoners.

## NEARBY COUNTIES MOVE TO ENDORSE JUDGE CLEMENT

A. M. Aiken, president of the Danville Bar Association, this afternoon called a meeting of the members to be held in his office at five o'clock for the purpose of taking action on the candidacy of Judge Turner Clement for the prospective vacancy on the Supreme Court bench.  
Judge Turner Clement would accept a place on the bench of the Virginia Supreme court if the legislature saw fit to elevate him to that position. He said this morning in answer to a question put to him by a reporter for the Bee. He was asked if the comparatively meagre salary now paid the Supreme court justices would be an obstacle to his acceptance and he replied by saying that the honor would be enough and that he would not refuse should it be offered to him.  
Concerted action is being taken in the Seventh Judicial circuit over which Judge Clement presides, and yesterday the Pittsylvania, Patrick and Henry county bar associations and the county boards of those counties agreed to endorse him for the vacancy. This is the first step taken anywhere in Virginia relative to the suggestion of a man to succeed Judge Joseph L. Kelly whose resignation was announced in Richmond two days ago, to be effective February 1st. Judge Kelly's successor would be elected by the Virginia legislature now in session.  
Judge Clement this morning heard of the action of the Patrick and Henry county bar associations and he was gratified over the compliment paid him by the warmth of the endorsement. In Martinsville, a petition is being circulated among members of the Henry county bar and at Chatham, Joseph Clement reported that favorable action had been taken by the bar of that county in which Judge Clement resides. The endorsements were similar in purport and referred to his service during the past two years on the Circuit court bench and also held that he was both judicially and morally equipped for elevation to that post.  
Discussion among lawyers of the endorsement of Judge Clement

## MISSION SCHOOL IS WRECKED BY CHINESE TROOPS

**Bullets From Guns of Soldiers Pierce Clothing of U. S. Citizen.**  
(Associated Press Leased Wire)  
PEKING, Jan. 12.—Chinese soldiers of the first division fired upon Flavian Mullens, an American, and Arthur Benson, an American, and then looted and wrecked the mission school, according to a report from the American consul at Changshi. Neither Mullens nor Benson was injured although bullets passed through the former's clothing.  
Soldiers claimed they were acting under orders from their commander to "wipe out the foreign devils," but it is believed here that the affair was due to a mutiny. The consul's report added that after the attack the mission was put under the guard of other troops.

In connection with the recent kidnapping of Mrs. Juliana Kelen, a missionary of Northfield, Minn., by Chinese bandits, Major John Magruder, assistant military attaché of the United States embassy, and Captain Woodrow Woodbridge, also an attaché of the embassy, have visited Wu Pei Fu, inspector general of Chihli, Shantung and Honan. Wu said that Mrs. Kelen had been reported near Rusan, not far from Loyang, Honan, Wu's headquarters.

The date set by the school board for the closing of the first term of the school year is January 22nd or one week from next Tuesday. On that day the pupils will be required to present to the pupils who will enter upon the second term in their new classes on the following day.

The open season for shooting quail in Putnam and Henry counties will close next Tuesday, January 15th according to Game Warden C. E. Kelly. The open season for rabbit shooting will not close until February 1st.

## JOHN F. DESHAZO, IN ILL HEALTH, CUTS HIS THROAT

(Special to The Bee)  
ROCKY MOUNT, Va., Jan. 11.—John F. Deshazo formerly of Leesville, N. C., cut his throat at noon today at the home of his father-in-law, W. E. Turner at Soniat according to word received here this evening. While Mr. Deshazo left no message explaining his act it is believed that he was suffering from diabetes in advanced stage prompted him to take his own life. Mr. Deshazo had been in declining health for some years and last November he went to St. Alban's sanatorium near East Radford in the hope that the treatment afforded him would bring him some relief. Last Friday he returned to his father-in-law's home 15 miles from here and joined his wife. Since his return he has been in a morose frame of mind though so far as can be learned he made no threat to kill himself. The tragic discovery was made in the afternoon a short while after he had committed the deed.  
Mr. Deshazo was a deputy sheriff at Leesville and was well-known in that section. He was about 40 years old and a brother of George Deshazo, supervisor of the estate of Dr. Frank McDaniel of Spray. Another brother, C. N. Deshazo is a resident of Danville at the present time.

## AUTO, FLEEING FROM POLICE, DOES THE MOTORDROME STUNT

London Campbell, who occasionally comes into the limelight at police headquarters on charges mostly pertaining to hicks, has again landed in the toils of the law together with Ed Bryant on charges of violating the Mapp Act. Campbell also is charged with fast and reckless driving, done at the risk of his own life, it is alleged. The officers of the law, who have charged that he and Bryant had five gallons of moonshine liquor on Campbell's Essex car. The case is now in charge of Schofield officers, Campbell being bonded for \$1,000, the charge being his second offense, while \$500 bond was required of Bryant.  
This morning about eight o'clock, Sergeant J. H. Martin and Patrolmen O. W. Bates, W. B. Foster, Probation Inspector W. B. Shelton and Officer Will Park, of Schofield, and Ben Heffinger, deputized, set out for the State line to meet Sheriff Gunn and a squad of officers from Yanceyville, armed with warrants, for purpose of making a series of raids on places suspected of handling whisky near the State line. Sheriff Gunn had once before been in communication with the Danville officers and said that a great deal of complaint had come to him. It was the result of these complaints that a meeting of the officers was arranged in order that a raiding expedition generally might be staged.

## COUZENS CHALLENGES MELLONS TO A JOINT DEBATE ON TAX ISSUE

**Judge Hutton Is Not a Candidate to Succeed Kelly**  
(Associated Press Leased Wire)  
RICHMOND, Va., Jan. 12.—Former Judge F. B. Hutton, of Abingdon, today advised Members of the Virginia general assembly that he was not a candidate to succeed Judge J. L. Kelly, who recently resigned from the Supreme Court of Appeals, but was supporting Judge Preston W. Campbell, of Abingdon, according to Senator B. F. Buchanan, of Washington and Smyth counties and city of Bristol.  
At the same time he received Mr. Hutton's telegram, Senator Buchanan received another from the Washington Bar Association that it had endorsed Judge Campbell, who has been a circuit court jurist for ten years.

Open Public Hearings on Tax Reduction Provisions to Be Held Monday—Bill Must Be Modified Before Majority Vote Will Be Received.  
(Associated Press Leased Wire)  
WASHINGTON, Jan. 12.—Secretary Mellon was challenged today by Senator Couzens, republican, Michigan, to a joint debate on the question of the necessity of reducing income surtaxes from 50 per cent. to 25 per cent. and stopping the issuance of tax exempt securities as a means of diverting capital to productive enterprise.  
Meantime, the House ways and means committee pressed forward to complete consideration of the administrative features of the Mellon tax bill so as to open public hearings on the tax reductions provisions next Monday.  
Republican leaders of the House in dealing with the tax subject, gave forth their thought today to the extent to which the Mellon bill must be modified in order to command a majority vote in the house. A conference on this subject was held yesterday but apparently the leaders got nowhere.  
In his letter to Secretary Mellon, the third in a series of exchanges between the treasury head and the senator on the tax question—Mr. Couzens declared that the percentage of tax exemptions on the market—\$11,000,000,000—was so small compared with \$100,000,000,000 to \$125,000,000,000 of other securities "as to give an appearance of the whole discussion as a tempest in a teapot."  
Senator Couzens cites from treasury reports to support his contention that the receivers of large incomes are not escaping any such large amount of surtaxes through the ownership of tax exempt securities as would "make it desirable for the government to lower surtaxes in order to secure more revenue for itself or to reduce the burden of business investments." The Michigan senator declared that States and municipalities must have funds from some source for improvement and asked the secretary if he contended that it was less productive to invest money in school houses, water works, lighting plants, State railway plants, good roads, colleges, sewerage systems and health-serving institutions than it was in theaters, office buildings, motion picture houses, ball parks, clubs, breweries, distilleries, gun, and cosmetic factories and the like.

## Whitmill Church To Be Remodeled

Citizens of Whitmill have begun making plans for a further development of the community the course of which are expected to be watched with some little interest. A few nights ago a group of the community gathered and a round table discussion developed. One of the decisions already reached is the material remodeling of the Whitmill Methodist church which is to be undertaken this Spring. The plans already have been drawn. Another development this Spring probably will be attention to the roads surrounding the community it being well rounded the Whitmill colony that its future progress will depend in large measure on the development of its highways.

## 80 KILLED IN CLASH

(Associated Press Leased Wire)  
MANILA, Jan. 12.—Eighty members of the Colorem, a religious society, were killed at Bucas Island last week in a clash in which a number of constabulary soldiers were slain, official advices from Surigao disclosed today.

## Power Plant Merger In County Reported

Consolidation of the Chatham Light and Power Company with the Alvirra Light and Power Company, under the name of the Piedmont Light and Power Company, is virtually assured as result of a tentative agreement which has been reached between the two concerns. Under the plan of consolidation which will not be effective for three months it is virtually certain that the water power will be available. Water will be used in part in generating electricity and steam plants in both towns will be operated, it is said.

## SCHOONER SINKS

(Associated Press Leased Wire)  
WOODSHOLE, Mass., Jan. 12.—The coal laden six masted schooner Ruth E. Merrill, Norfolk for Boston, sank in Vineyard Sound today, having sprung a leak last night. The captain and his crew of 12 men escaped in a power boat.

## BONNER FOUND DEAD

(By The Associated Press.)  
SAN JUAN, Jan. 12.—J. W. Bonner, insular treasurer of Porto Rico, was found dead at his desk at 5 o'clock this morning. He leaves a widow here and a son and daughter residing at Ann Arbor, Michigan.

## FEW VITAL CHANGES SEEN IN 1924 LICENSE TAX LAW

City merchants and others in business in Danville will be interested to know that the city council finance committee has made no material revisions of the city license tax ordinance which is adopted annually before the beginning of another fiscal year. Assessments and schedules of the revenue, include leaf tobacco dealers, but three clauses amended and only two additional sections have been added to it. The proposed changes have not yet been read to the city council but they will be taken up at the next meeting of the council.  
The license tax on professional men has been amended in slight form. This section 6, as it now stands, provides that professional men and doctors shall pay a fee of \$15 annually for five years at \$25 thereafter. The inclusion of the words "and any school of the healing art" has been embraced with a view to embracing any form of specialist who may seek to do business here.  
Section 42 has been amended so as to make the penalty of 20 per cent. which is applied to all merchants who fail to make returns twice a year on purchases to the city commissioner of the revenue, include leaf tobacco dealers, contractors and butchers, which have hitherto been exempt.  
Section 64, pertaining to the license tax of \$50 on bill posters, instead of being pro ratum and payable at a rate of \$2.50 quarterly is made flat.  
The two new sections are 101 and 102. Section No. 101 provides that persons renting automobiles on the "U-Drive-It" plan shall pay a license annually of \$50.  
Section 102 provides a flat license of ten dollars per annum on the proprietors of beauty parlors, masseurs, manicurists and hair dressers.

## JOHN ASHLEY MAKES GOOD HIS ESCAPE

**Everglades, Familiar to Outlaw and He Manages to Evade Pursuers, Who Give Up Chase One by One and Return to Homes.**  
(Associated Press Leased Wire)  
WEST PALM BEACH, Fla., Jan. 12.—John Ashley, one of the two members of the notorious Ashley gang, still at large today, apparently had been made good his escape as small searching parties, one by one gave up the pursuit and returned, to their homes. The everglades, virtually a trackless swamp where Ashley disappeared, proved a haven of refuge for him.

Thursday night posses were reported less than 30 minutes behind him. Yet his knowledge of the wilderness enabled him to travel in darkness, when pursuers were forced to stop and the trail was lost when the search was resumed at dawn yesterday.

Hanford Mobley, the other member of the band now sought by officers, was said not to have returned from an alleged run running trip to West Palm Beach and officers expressed the opinion that he had heard of the battle at the Ashley camp yesterday and had gone somewhere else. His return had been expected Sunday.

The body of the section in which the Ashley gang made its home, however, expressed the opinion that the breaking up of the outlaw gang had been accomplished and that crimes in the section would lessen.  
The body of Deputy Sheriff Baker killed last Wednesday morning in the fight at the outlaw's camp will be buried tomorrow afternoon after a public funeral. The body of J. W. Ashley, bandit chieftain and father of John Ashley, lies unclaimed in the morgue here.

Bill Ashley, a brother of John, said to have joined the fugitive outlaw Thursday, surrendered at Olympia today. He denied having seen his brother, or assisting him in any way. A rumor that John Ashley had been captured and taken to Jacksonville to avoid possible mob violence, was denied last night by Sheriff Bob Baker.

## WEDDING LICENSES ISSUED

Wedding licenses have been issued by the clerk of the corporation court to Fletcher M. Dixon and Lula M. Moran, of Danville, and to Mount, of Danville, and Hattie B. Walton, also of Danville.

—Mrs. W. E. Clark who is ill at her home on Bryant avenue and whose condition early this morning gave rise to the keenest anxiety, was reported this afternoon as having rallied and to be showing some improvement.

## Spark Plug Wins

Spark Plug won the transcontinental race.  
Readers of The Bee who have been following the peregrinations of this blue-blooded race horse and his indisputable market will be relieved to know that Barney Google's colt beat Sassy Sassy by the skin of his whiskers—not by a highly polished nose after a four-day race which concluded today in Los Angeles. Barney as will be seen on Page 6, is already "blowing in" part of the \$100,000 which he wins as result of his same speed and Sunshine progress in the city commissioner of the revenue, include leaf tobacco dealers, but three clauses amended and only two additional sections have been added to it. The proposed changes have not yet been read to the city council but they will be taken up at the next meeting of the council.

## NEXT WEEK'S WEATHER

WASHINGTON, Jan. 12.—Weather outlook for the week beginning Monday:  
Middle Atlantic States: Generally fair first half and considerable clouds, probably rains over south and snows or rains over north latter half of week. Colder Monday, warmer Tuesday or Wednesday and colder again at end of week.  
South Atlantic and east Gulf States: Generally fair until the latter part of week when rains or a blizzard Monday, warmer middle of week and colder Friday and Saturday.

**This Together With Restricting of Judicial Circuits, Recommendations On Simplification and Economy and Budget Bills Will Occupy Attention of Assembly on Reconvening Monday.**  
(Associated Press Leased Wire)  
RICHMOND, Va., Jan. 12.—Equalization of taxes, restricting of judicial circuits, recommendations of the commission on simplification and economy and the new budget bill will be the principal subjects demanding attention of the Virginia general assembly when it reconvenes Monday.  
After convening Wednesday the assembly immediately took up the task of completing its organization. The Senate committee were appointed Thursday and Speaker R. L. Brewer, Jr., of the House announced last night he had completed his selections and would make them public at the Monday session.  
The tax question has been kept in the foreground since the first day of the session and the publication of an address by Senator Holman Willis of Roanoke, floor leader in the house last year, today gave it added importance.

Equalization of assessments as between individual property owners would add one-third to the state's revenues, cure Virginia's financial ills, and at the same time not increase by so much as a dollar the taxes the government levies at present.  
Like the governor, the speaker of the house and numerous members of the assembly, Senator Willis said he was opposed to any increase in taxes. The state is confronted with the problem of raising additional funds to carry on its activities, he asserted, adding that the "very simple remedy is to equalize—not necessarily between Accomack and the counties or between Richmond and Roanoke—but between neighbor and neighbor."

The Senator indicated that he believed equalization could be accomplished only through local authorities.  
Senator Alfred C. Smith of Portsmouth and Norfolk county, is sponsoring a measure designed to create a commission, composed of three persons appointed by the governor, which would have the duty of equalizing assessments as between political subdivisions of the state and to direct local officials to equalize assessments as between individuals.

Observers at the capitol are awaiting word on the position the southwest senators and delegates will take on equalization. The statement has been made in political circles that the southwestern part of the state is not paying its proportion of taxes as compared with other sections. It has been pointed out, however, that much of the land there is used for grazing and is not as favorable as that of other sections.  
Several delegates have stated they will oppose any effort to place a state tax on coal, as such a step would place the miners of southwest Virginia at a disadvantage in competing with West Virginia and Pennsylvania.

Such a measure relating to the judicial circuits, passed by the senate yesterday, will be before the house, next week for consideration. The resolution asserted that the judges do not have enough work to keep them busy and that of them sitting only 150 days a year.  
The resolution provides that a legislative committee investigate and report next Saturday on the following:  
"Whether it is practicable to reduce the number of judicial circuits in this state—and if so, report a bill that will embody the necessary provisions to carry into effect its recommendations."

Whether it is found impracticable to reduce the number of judicial circuits, it is practicable to restrict the judicial circuits of the state as to more nearly equalize the distribution of work among the judges.  
Such other matters incident to the administration of justice by these courts, as will, in its judgment, promote the speedy and efficient administration of justice."

A summary of the report of the commission on simplification and economy, recommending that the administration of state affairs be placed in the hands of 10 departments, already has been read to the senate and the complete recommendations are expected to be handled in early next week.

Work on the new budget bill will be started by the finance committee of the senate and an appropriation committee of the House Monday or Tuesday, according to Chairman J. Sinclair Brown, chairman of the House committee, and an effort will be made to return the measure to the assembly within five weeks.

Section 102 provides a flat license of ten dollars per annum on the proprietors of beauty parlors, masseurs, manicurists and hair dressers.

## Curtain Is Rung Here On Double Killing In North Carolina City

It's either Dan or Beersheba; alpha or omega; things are starting in Danville or the curtain is rung here.

The story of a double killing, a series of burglaries and the ending of the trail in Danville was unfolded in police headquarters here last night to a reporter of The Register by Chief of Police L. C. Crutchfield, of Siler City, N. C., who had come to this city to recover stolen goods.

Henry Howard, one-armed negro, born in Caswell county, and twenty years ago a resident of Danville, wanted for the murder of several men, a score of burglaries and other crimes, mostly committed in North Carolina, recently broke into a store in Siler City and stole a quantity of goods. It was not his first operation in that section and he was known generally as a bad negro. Chief Crutchfield, earned that he had relatives in Danville and was in the habit of sending stolen goods to this city. So Thursday he telegraphed the Danville police to be on the look-out for the man. Thursday night detectives Campbell and Lewis, Chief Officer Foster went to the home of Julie Vincent, half sister of Howard, and made an investigation which convinced them that the negro had not reached this city.

In the meantime Howard had burglarized stores in Raleigh, N. C. Officers in that city discovered the negro and fired at him, but he escaped, going in the direction of Aberdeen. Officers in Aberdeen were notified and Thursday morning discovered the man. After a short chase he was captured. He was taken to the jail in Siler City.

Then followed the "tragedy" in which Chief of Police W. P. Page, of Aberdeen and the negro, Howard, were killed. Chief Page put the negro in a Ford sedan, on the rear seat, the chief and Jean Merritt, driver of the car, occupying the front seat. The negro, apparently had been carefully searched and had managed to retain his gun. While on the way to the Aberdeen jail he secured this and ordered the car stopped. Chief Page drew his pistol, but the negro fired pointblank at him, shooting four times. Despite his wounds, Chief Page turned round, half climbed over the seat and grasped the negro by his one arm. He died gripping tightly the negro's wrist. In his effort to reach the negro the officer dropped his gun on the seat, and the driver, Merritt, picked it up and fired on the negro three times, killing him almost instantly.

Yesterday Chief Crutchfield, of Siler City, arrived in Danville, having stopped en route at Aberdeen and identified the negro. He came here to recover, if possible, the stolen goods which had been sent to this city by the negro. Detectives Lewis and Campbell accompanied the officer to Julie Vincent's house last night and some of the goods were recovered, including a wrist-watch which he had given to Mattie Lee Vincent, daughter of Julie. His half sister told the officers she was glad to learn that Howard was dead as she was afraid of him. She said that the negro, while on a visit here Christmas, boastfully told her of having killed several white men in North Carolina, and that he bragged of having burglarized many stores.

Chief Crutchfield said a reward of \$50 had been offered by the proprietor of a store in Siler City for the capture of the negro, and that this reward had been paid to the mayor of Aberdeen to be given to the widow of the dead officer or to the driver of the car who had killed the negro, or to be divided as the mayor saw fit.

SHIP STILL ON BAR (By the Associated Press) WILMINGTON, N. C., Jan. 11.—The American Steamer, Springfield, which went aground off the Cape Fear bar at the entrance to Southport harbor this morning when it attempted a second time within two days to leave the harbor, having been grounded once and floated, to-night still was resting on the bottom. The coast guard cutter Modoc and several tugs were endeavoring to pull her off so she could put out for Bremen with her cargo of cotton and phosphate.

Grandmother Knew There Was Nothing So Good For Coughs and Colds as Mustard. But the old-fashioned mustard plaster burned and blistered while acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears. Try Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back of joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it may prevent pneumonia).

To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c, jars and tubes; hospital size, \$3.00.

**MUSTEROLE** WILL NOT BLISTER Better than a mustard plaster

**A Strange Biblical Lamp**

THE PARABLE of the wise and foolish virgins in the New Testament, telling how, when the bridegroom came the wise virgins who had trimmed their lamps went out to meet him, but the foolish virgins who had not trimmed their lamps were ashamed to go to him without light, brings to our attention another form of lamp.

IN REALITY the lamps they carried were a kind of torch, made with a core of iron or potter's earth, wrapped about with linen and moistened from time to time with Oil.

Nowadays the wise housewife keeps her lamps filled with The Red "C" Oil or The White "C" Oil, same except in color. Long-burning, and free of all smoke and odor, it is the better kerosene for lamps, stoves and incubators.

## TRAVELS 475,000 MILES IN AUTO

SYL MACDOWELL AND THE 475,000-MILE CAR IN WHICH HE COMPLETED THIRD COAST-TO-COAST TOUR IN SIX MONTHS.

By STEVE HANNAGAN  
NEW YORK, Jan. 12.—Syl MacDowell who drove 15,000 miles in automobiles last year has just completed his third coast-to-coast drive within six months, in an automobile that has traveled 475,000 miles.

"The funniest incident I ran across in all my travels," he spoke from behind a mask of sun and wind tan, "was the one about the wealthy man from Brooklyn who was touring to Los Angeles. Having heard all the tales of the Indians of the West, he packed a loaded shotgun. As he rode along he spied what he believed to be a porcupine. Picking up the gun, he let fire—and blew a cactus plant to pieces."

The average time tourists require to cross the continent in an automobile is one month, according to MacDowell, who says most drivers average 70 to 150 to 200 miles a day. His best mileage in a single day was 380 miles—and the hardest and shortest day's drive was 60 miles through Missouri mud. "New Mexico is the most picturesque state in the coast-to-coast drive and the Mississippi river is the dividing line of roadway civilization—from St. Louis on into New York the ride is as standard as in a Pullman car," says MacDowell.

The average cost for two people to make the long drive in a small, light car, is \$10 a day, which "is cheaper than standing still," according to MacDowell.

From 75 to 414 gallons of gasoline are necessary to fuel the trip.

"One day in Kansas," recounted the interesting MacDowell, who spins motoring yarns like a fisherman, "a snake ran under a tourist's automobile, and then disappeared. When the tourist could not find it, he worried him. The next day he found the snake—it was coiled up in his battery box."

"The drive over the desert worries most people," but it is merely legendary fear. The roads are wonderful and well posted, so that it is almost impossible to lose one's way.

"One chap I met entering Yellowstone Park was making the trip with a map torn out of his child's geography. 'There are a lot of places in this country not on this map,' he said.

"There is scarcely a day during the season of touring that one cannot count nearly every state's license plate in a day's travel. Last fall I noticed a Hawaiian plate in a snowstorm at Flagstaff, Ariz."

MacDowell's home is in Los Angeles and he is a writer touring for atmosphere. Soon, he will drive back to the motion picture city to prepare for another drive back to New York. He is a transcontinental commuter.

Second Baptist church, A. G. Carter, pastor. Sunday school meets at 9:40. Willie Austin, Supt. Morning service 11 o'clock. Subject, "The Power of Christianity." Evening service 7:30 o'clock. Subject, "Heaven and Hell." All B. Y. P. U.'s meet at 6:30.

—Riley Bailey returned Thursday to Washington after a ten-day visit to his parents, Mr. and Mrs. J. R. Bailey.

## Membership Drive of Chamber of Commerce Closed On Yesterday

The drive for members for the Danville Chamber of Commerce was brought to a successful close yesterday afternoon with a total of 301 new members having been secured for the organization. In many respects it was a remarkable drive, meeting with a splendid and encouraging response, boding well for the future of the body.

It has secured new blood, for the most part young blood, and the new membership is a representative one, being drawn from practically every business and enterprise in the city.

In the last day's canvass Division B, Waynes, R. Harrison, chairman, again led, with a total of 48 members and 61 points. This division has led every day, each day doing a little better than on the previous day. Yesterday team No. 2, J. L. Browder, captain, led in points with 17.

In Division A, J. A. Herman, captain, 33 members and 38 points were secured. Crispin Dickenson, captain, team No. 2, which with thirteen members and 17 points.

The result of the three day canvass follows: First day 103 members; second day 112; third, day 86; total 301. This added to the old membership of the Chamber of Commerce, which was 281 before the drive began, brings the membership of the organization up to 582.

It was announced last night that the ballots with the list of thirty nominations for directors will not be sent out until Tuesday. Out of this list 15 directors will be chosen by a vote of the membership. The fifteen selected will elect three additional directors at the first meeting. The ballot follows:

P. W. Ashworth, J. Lee Browder, Jr., C. L. Booth, S. C. Cunningham, Jas. T. Catlin, Jr., A. B. Conway, Jr., A. B. Crowell, L. B. Conway, C. H. Dodson, G. P. Geoghegan, Jr., W. E. Gardner, D. E. Graham, Jr., Jno.

**DANVILLE POST LEGION MAKES A GOOD SHOWING**

Winners in the preliminary campaign for membership dues for 1924 for the American Legion, department of Virginia have been announced by state headquarters. The campaign, which closed Dec. 31, was to see which post could get the largest percentage of their 1923 membership paid-up for 1924.

Special certificates of merit for particularly good showings were given to Fieldale and Surry Posts for having 100 per cent. paid-up memberships; Danville Post for having 210 memberships, showing the addition of ten new members; Winchester Post for an 80 per cent. paid-up membership; Hopewell Post for 65 per cent; Church Hill Post for 55 per cent; Richmond Post and Staunton for 54 per cent.

The records of Danville Post, Richmond Post No. 1, and Staunton Post are particularly creditable since they have such large memberships, it was pointed out.

Pulaski Post, No. 7, was winner of the first prize, receiving \$25. Second place was taken by Blackstone Post, No. 62, which received \$15, while third place was taken by Phenix Post, No. 123, which received \$10.

At the opening of this preliminary campaign, Pulaski Post had seventy-seven members and at the close of the campaign they had taken in enough additional members to bring their total paid-up membership to 117 or 140 per cent. of their 1923 total. Blackstone's percentage was 126, and that of Phenix 100.

Moffett Memorial Baptist Church, C. J. D. Parker, pastor. Sunday school 9:30 a. m. T. W. Wilkins, Supt. Preaching at 11 a. m. and 7:30 p. m. Morning subject, "Keeping Record in the Book of Life." Evening Topic, "Our Sojourn." The three large B. Y. P. U.'s meet just before the evening preaching hour. On this new year, let us begin at the beginning and keep a-going. A glad welcome awaits all.

Main Street M. E. Church, South. Preaching at 11 a. m. and 7:30 p. m. by the pastor, Dr. T. A. Smoot. Morning subject, "A Mighty Fortress Is Our God." Subject for the evening, "Who Shall Shine as the Stars?" Sunday School at 9:30 a. m. A. D. Keen, Supt. Features Bible Class for Men, C. G. Evans, teacher. Epworth League devotional at 6:30 p. m. Wednesday evening prayer service at 7:30.

Calvary Methodist, Jos. S. Gresham, pastor. Sunday school 9:30 a. m. Martin, Supt. Preaching by the pastor at 11 a. m. topic, "A Precious Promise." and 7:30 p. m. topic, "Character Lessons from the Life of Joseph." Epworth League services 6:45 p. m. Prayer meeting Wednesday 7:30 p. m. Silver Tea at the parsonage Thursday afternoon 3:30 to 4:30 o'clock.

—Riley Bailey returned Thursday to Washington after a ten-day visit to his parents, Mr. and Mrs. J. R. Bailey.

—Miss Lucy Tuck has returned home from a visit to Kenbridge and Lynchburg, Va.

—Mrs. W. W. Anderson and son, Bailey, and Miss Lovelace Bailey will spend the week-end in South Boston visiting relatives.

## SPEED OF MAJESTIC SLOWED BECAUSE CHILD WAS SICK

NEW YORK, Jan. 11.—Because a four-year-old girl lay desperately ill in one of the cabins, the giant White Star liner Majestic cut down her speed to less than three knots last Sunday while she was smashing through heavy seas and a terrific gale, it was revealed when the liner docked at Pier 59 North River, thirty-six hours late today. It was the slowest trip the Majestic ever made.

Passengers told how Sir Bertram Hayes, the captain, disregarding his marine reputation, ordered the speed of the giant liner cut down so that the suffering of little Betty Read, lying on an air bed in one of the cabins, might be alleviated.

Two ambassadors were aboard. Sir Auckland Geddes, retiring British ambassador, came to say goodbye to official Washington. Alexander P. Moore, United States ambassador to Spain, returned for a visit. He detailed reports that he is to be married.

**STOMACH UPSET?**  
Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, or causing pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

# MANY THINGS HAPPEN IN BUTLER'S VICE WAR

By ROWLAND WOOD  
(Copyright 1924, By The Bee)  
PHILADELPHIA, Jan. 12.—The political backfire began today, which is to be the real test of Mayor Freehold Kendrick's Butler-led drive on sopping, sinful Philadelphia.

So far the drive has been a howling success with most of the howling done by the city's underdog. Since Brigadier-General Smedley D. Butler of the Marines, on leave for a year to make a spotless town of Philadelphia, sounded his 48-hour ultimatum to the police force, many things have happened.

His spectacular inspection swoops on scattered police districts, culminating at the end of his 48-hour period of grace in the chopping off of eight official heads, has thrown a scare into the force for many a day. And police officials, rufing in circles in their efforts to save their jobs, have convinced the underworld that they mean business.

Seventy-five per cent. of the obvious vice of Philadelphia has been mopped up. The tunderbolt which launched the idea that snip of a marine could put them out is boarded up so tight that air to breathe is scarce. Pictures of the general in his "Old gimlet eyes" and duck to cover if he happens along when the tunderbolt is out taking the air.

Events the elements which ridiculed Butler for his brass band methods are conceding today that Butler if he is given his head, will eventually make Philadelphia one of the most virtuous of cities.

The only question left is, "Can Freehold Kendrick stand the pressure?" There's no question that the pressure is going to be high. More than a dozen political leaders have sought conferences with the new mayor for today. If he stands the pressure to tomorrow. And when they see him, they are set to bring every pound of force they possess into play to induce him to "lay off"—or at least to have some mercy on the "old crowd."

Kendrick is, or was before his campaign for the mayoralty, a republican organization man. He "accepted" a business man's committee invitation to make the race, but the organization endorsed him, got vigorously behind his campaign, and claims much of the credit for giving him a place and a half the majority over his opponent—the greatest victory a mayoralty candidate ever won in the City of Brotherly Love. Incidentally, it will have a lot to say about whether Kendrick ever sits in the governor's chair which many Philadelphians believe is his right.

Can he stand the pressure? So far, he has played the part of a bold, independent executive. He passed up "the old crowd" and imported a lot of outside talent, including Butler, to help him run his administration. He told the writer he picked these because he wasn't sure that the Philadelphians who might have been available for the clean-up job were proof against "being reached."

When he put Butler to work he gave him a free hand and ordered him to "enforce all the laws." Butler says he has had perfect support so far. When the new safety director went to the mayor Thursday with his list of police officials he was opposed to extradition, Kendrick affirmed his "O. K. Kendrick" without even looking to see if there were any political favorites on the list.

As a matter of fact there was one, Lieutenant John Duffy, who is reputed to be a strong pull with more than one republican leader. After Kendrick had signed the list, Butler discovered that all he had against Duffy was the fact that he had not been at his station on inspection. Duffy claimed to have been out in his district hunting vice.

But the way Butler tells it, the mayor practically insisted that Duffy's name stay on the list. And it stayed. Butler refused the charge from neglect of duty the charge against the orders to one of "lack of interest."

"Politics?" said Butler when the writer went to him with the question. "Mayor Kendrick hasn't said a word to me about politics. And I, for one, don't have any idea that he will."

Thrift Week Will Open On Thursday

Next Thursday, January 17th, will be observed throughout the United States as the Birthday of Benjamin Franklin, the pioneer American exponent of thrift. It will also be the opening day of National Thrift Week and will be designated as Thrift Day. The remaining days of the week are designated as follows:

Budget Day, Friday, January 18th.  
Pay Bills Day, Saturday, Jan. 19th.  
Share With Others Day, Sunday, January 20th.

Life Insurance Day, Monday, January 21st.  
Own Your Own Home Day, Tuesday, January 22nd.  
Make a Will Day, Wednesday, January 23rd.

The Danville Young Men's Christian Association is promoting the observance of Thrift Week here and has the hearty co-operation of public schools, pastors, newspapers and civic organizations in its effort to bring this important matter forcibly to the attention of our citizens.

The Y. M. C. A. Thrift Committee is composed of the following: W. C. Griggs, Superintendent of Public Schools; A. H. Taylor, editor of Danville Register; Messrs. James Eustard, W. S. Rendleman, Wayles Harrison, A. F. Patton, R. R. Murray, Prof. J. W. Cook, and E. G. Corwine, General Secretary. Y. M. C. A.

One feature which will receive special emphasis is the budget plan of personal and family finances. Promoters of thrift week contend that if the budget plan is good for governments and corporations, it is also good for individuals and families. Interesting Thrift exhibits with striking cartons emphasizing the various phases of thrift will be given in the public schools and the children will be asked to write essays on Thrift.

The Thrift message will also reach the man on the street through striking posters and window cards which will be displayed in the stores of our business houses. Thrift is a virtue which needs to be cultivated by the American people and it is believed that the general observance of Thrift Week will prove of great moral and economic value.

## Supper-Dreadnaught Starts On Cruise

—Photo by Levick, New York, courtesy Westinghouse.

The super-dreadnaught, U. S. S. Colorado, with a full complement of 1408 officers and men, under the command of Captain Reginald R. Belknap, U. S. N., left the New York Navy Yard on Saturday, December 29th, for a six weeks' cruise to European ports. She will leave for the Mediterranean, the Adriatic, the Aegean, the Black Sea, the Baltic, the North Sea, the English Channel, the Atlantic, the Indian Ocean, the Pacific, the South Sea, the Antarctic, and the Arctic.

## SUIT AGAINST THAW SETTLED

(Associated Press Leased Wire)

PHILADELPHIA, Jan. 12.—It was confirmed here today that suit for \$500,000 against Harry K. Thaw, brought by Frederick Gump, Jr., of Kansas City, has been privately settled for less than \$100,000. The suit was the result of charges that Thaw had whipped Gump in a New York hotel in 1917 and had subjected him to "gross and savage indignities."

So far as can be learned there is no change in the attitude of Thaw's family, which is opposed to him being released from the Pennsylvania hospital for mental and nervous diseases. He was committed to this institution by a Philadelphia court at the time the New York authorities were endeavoring to have him extradited to New York on the Gump charges.

NO NEWS RECEIVED.

(By the Associated Press.)

WASHINGTON, Jan. 11.—The Navy Department tonight had received no official information on the reported grounding of the Destroyer Cochran today on the North Carolina coast. The Department has heard from the destroyer, which is proceeding south with the fleet for the Panama maneuvers, yesterday when she reported her position as off Cape Lookout, North Carolina. She is under the command of Lieutenant Commander J. M. B. Smith.

## Accounts For Summer Goods On Display Now

By ALLEN LAMONT

(Copyright, 1924 by The Bee)

NEW YORK, Jan. 12.—"And who answered the writer, sweeping aside all disguise."

"And what have you discovered?" "That only a small portion of the feminine population of the country will go to Florida or California this winter, but that every woman likes to plan and own the wardrobe for such a trip."

That accounts for the extensive showings of Palm Beach and Corrado styles in shops all over the country and for the extensive advertising of spring and summer garments in the midst of winter. Some recent purchasers will be satisfied with the luck of some of the Palm Beach styles do not last through until spring.

That, however, will not apply to hats for the straw will be worn shortly, no matter what the weather. At present the trend is toward the small black straw with sharply turned brims trimmed with black ribbon, the ends of which fall over one shoulder. Milan and Bankok are among the popular weaves although the shes attract the popular taste closer to Baltimore than to Italy or Spain. Some of these hats are formed of braids of these straws made to stimulate ribbons.

In the frocks outside the short gown, and continue to hold sway with black and white combinations extremely effective and popular. Attempts are again being made to popularize gingham dresses and the aid of some of the most competent French designers has been secured to turn out charming but simple gowns of these materials. So far, however, they have not attained any marked vogue for the coming spring.

Evening dresses are still conspicuous by their absence on daytime as well as evening garments of all descriptions, except bathing suits. So universal has the brevity of the one-piece bathing suit become, that its most competent French designers have been secured to turn out charming but simple gowns of these materials. So far, however, they have not attained any marked vogue for the coming spring.

For dancing, the bountiful mode has been substituted by the more conspicuous French designers has made it possible for wearers to crowd into a well occupied automobile seat, to ride a bicycle or to repose on a masculine knickerbocker, without any immediate effect on the wearer or her neighbors.

This is accomplished by substituting expanding rubber bands to distend the skirts instead of a wire framework. These bands can readily be adjusted to the wearer's taste, and the skirts may occupy as wide or as narrow a territory as is desired. In fact it is even possible to have the "hip" on one side and the "hurry" on the other.

## Tried to Blow His Spouse Up With Dynamite

(By Chicago Tribune Service)

MONTEVIDEO, Jan. 12.—The annals of crime bear the records of many men who have beaten their wives to death, or have planned to shoot them, but a Montevideo man, Samuel Giannone, is believed to have established a precedent when he tried to dynamite his spouse who was rescued from a circle of twelve bombs just before the husband set them off.

Giannone's plans for blowing up his wife were elaborately laid. He laid her in the middle of a room and distributed the bombs around her, threatening to set them off immediately if she moved. While arranging the fuses which he intended to set off from the outside, the wife ran to a window and shrieked for aid. The husband ran back into the house and a policeman found him there rearranging his bombs.

FUNERAL OF MRS. ABBOTT

The funeral of Mrs. M. H. Abbott who died near the city late on Tuesday night was conducted from the home near Mt. Oliver at two o'clock this afternoon. Interment being made in the family burial ground nearby.

Mrs. Abbott was 59 years of age, and was highly respected by her many friends. She was twice married, her first husband, Mr. J. W. Ricketts, died in 1917. She was a member of Mount Oliver church. Besides her husband, Mrs. Abbott is survived by the following children: George W. Abbott, Lindy Abbott, Floyd J. Abbott, Mr. Andrew Coleman and Mrs. Jennie Lindsey.

DEATH OF J. W. RICKETTS

News was received here today of the death at Richmond last Tuesday of J. W. Ricketts, who was 62 years of age, following a lengthy illness. Death was attributed to an attack of the heart. It was said.

Deceased was born in this county where he spent his major portion of his life. He was highly respected by his many friends. He was twice married, his first wife dying several years ago. He is survived by his last wife, who was formerly Mrs. March Lewis, one step-son and one brother, Ed Ricketts, of Wm. also a sister Mrs. Calvin of Atlas, Va. The funeral was held Wednesday afternoon at the graveside by Rev. M. Wilson.

Mrs. Reginald Clark and Miss Blanche Hoopes are spending the week-end with relatives in Salisbury, N. C.

## BUTLER TURNS ATTENTION TO BANDITRY NOW

With Saloons and Notorious

Dives Closed, Philadelphia Police Carry War to

Other Forms of Lawlessness.

PHILADELPHIA, Jan. 12.—With nearly 1,000 of the city's 1200 saloons closed, every known disorderly house and gambling establishment out of business and the bootleggers driven to cover as a result of the intensive police campaign for the elimination of vice and crime, Brigadier Smedley D. Butler, director of public safety, today turned his attention to banditry and other forms of lawlessness.

General Butler said he was satisfied that at least 80 per cent. of the places where vice flourished before the drive started had been wiped out.

"When I say that we are turning our efforts to attacking banditry," said the general, "I do not mean that we are going to relax our vigilance towards vice. We have most of the saloons and dives closed and we are going to see that they stay closed. It is my intention to institute a vice drive at least once every week and keep it up until these places are afraid to reopen. We will raid and keep on raiding as long as there is a saloon or dive illegally operating."

In outlining his plans to curb banditry, Director Butler said that arms guards and observation booths would be placed at all the 21 entrances and exits of Philadelphia to prevent the escape of high-waymen and to check up on persons entering the city. Stationed at each of these outposts will be an armored motor car, detectives with saved off shot guns, motorcycle policemen and a permanent sentry, whose duty will be to see that no suspicious-looking character passes in or out of the city without inspection.

Observation booths will be equipped with telephones and radio communication connecting directly with the electrical bureau in city hall where all robberies and hold ups are first reported.

When the central station receives the report of a holdup, a flash will be sent to the outposts, giving a description of the highway man and his automobile, if one is employed in making his getaway. From the outposts the armored cars and motorcycles will begin a simultaneous movement toward the center of the city, combing every street on the way. A bandit car also will be placed at each of the 41 police station houses.

Their line will be next to impeneable, Director Butler believes. "This system," he said, "will be put into effect immediately as a part of the clean up program. Instead of the bandit-chasing squads starting from the city hall, after a holdup, which places them in the center of the city, they will meet them head on, giving the police the advantage."

Reidsville Wants

a New City Hall

(Special to The Bee.)

REIDSVILLE, N. C., Jan. 12.—The town commissioners have gone on record in favor of building a new city hall which will cost in the neighborhood of \$100,000. The city attorney states that satisfactory financial arrangements can and will be made in the near future and some definite announcement is expected before long. The Kiwanis and the Rotarians made an appeal to the commissioners and they were told that the commission contemplated such a building on fine site secured several years ago and which is still the property of the town. Plans and specifications for the new building are already on hand.

## PREPARE FOR FIGHT ON AMENDMENT OF RULES

(Associated Press Leased Wire)

WASHINGTON, Jan. 12.—The interior department appropriation bill remained before the house today but the interest of members centered chiefly in committee activities and the prospective fight Monday over amendment of the rules.

Decision of the rules committee yesterday not to recommend a number of changes proposed by republican insurgents and democrats brought an announcement from Representative Garrett, minority leader, that the insurgent bloc immediately called a conference for today to determine their course of action.

The rules committee amendment to the rule for discharging committees from consideration of legislation is expected to draw most of the fire. The committee voted to recommend an amendment which would require 150 signatures on a petition for discharge of a committee, after Representative Nelson of Wisconsin, the republican insurgent member, had advocated a

minimum of 100 signatures. The three democratic members of the committee today continued their study of emergency legislation intended to benefit the producers, the former dealing chiefly with the New-Sinclair bill providing for creation

## SOCIAL ACTIVITIES

### SUNDAY

Summerville Home.  
Vesper services at Sunnyside Home will be held at 4 o'clock Sunday afternoon. The service will be in charge of the elders of the First Presbyterian church. E. M. Williamson, J. W. Cook, T. S. Williamson, George W. Robertson, F. L. Walker, H. S. Lanier, D. A. Overby, W. H. Cobb, W. D. Overby, J. T. Watson, J. L. Hagan, Dr. C. E. Harper.

The music program will be in charge of Miss Marie L. S. Conner, of Randolph-Macon Institute. Friends of the home are cordially invited.

Special music at the churches.  
There will be special music at both morning and evening service at Main Street Methodist church.

At the morning service:  
Richard Penn will play the offertory, violin solo, "Lead Us O Father."

Galbraith.  
Mrs. Allen T. Rabe and John Eanes will sing an offertory duet and Miss Madeline Moore, of Randolph-Macon Institute, will sing the solo obligato in the anthem, "The Lord Is My Strength."

Evening service:  
Anthem, "Jerusalem"—Parker.  
Offertory, "Shadows of the Evening"—Barri-Shelley.

Epiphany Church.  
Solo, "The Lord Is My Shepherd"—Mrs. Laura Janos Fuesel.  
Mt. Vernon Church.

Morning service:  
Offertory solo—Violin, "Chanson"—Mrs. James Audi.

Evening service:  
Offertory solo, "Sun of My Soul"—Gaul—Miss Ruth M. Root, of Averett college.

MONDAY.  
There will be meetings of all the circles of the Woman's Missionary society at 4 o'clock at the First Presbyterian church at 3:30 p. m. Chairmen of the various circles will notify the members of their respective committees, so that every one will know to which circle they belong.

At 5:30 p. m. the Workers' Council will meet and have supper together. Following the supper a business meeting will be held.

There will be a joint meeting of the Woman's Missionary society and the W. R. Lambuth Missionary society of Mt. Vernon Methodist church, in the Sunday school room, at 4 o'clock Monday afternoon. This meeting is of great importance and all members are requested to be present.

The Woman's auxiliary of the First Presbyterian church will hold circle meetings at 4 o'clock p. m. as follows:

No. 1, Mrs. E. F. Seales, leader, with Mrs. Geo. W. Robertson, 322 West Main street.

No. 2, Mrs. Geo. S. Hughes, leader, with Mrs. W. T. Hughes, 233 West Main street.

No. 3, Mrs. W. D. Overby, leader, with Mrs. W. E. Jones, 734 Main street.

No. 4, Mrs. E. W. Brown, leader, with Mrs. Brown, 124 West Main street.

No. 5, Miss Helen Cook, leader, in the study at the church.

No. 6, Mrs. H. S. Lanier, leader, with Mrs. Maude Bruce, 127 South Main street.

No. 7, Mrs. George A. Watson, leader, with Mrs. Cook and Mrs. Friend, 708 Main street.

No. 8, Mrs. G. P. Geoghegan, Jr., leader, with Mrs. C. P. Blunt, 733 Main street.

Reception at Mt. Vernon.  
Invitations have been issued by the Official Board of Mount Vernon Methodist Church, to a reception which will be held in the auditorium of the Sunday-school on the evening of Friday, January 18th, at 8 o'clock, in honor of Dr. and Mrs. Samuel T. Senter.

Afternoon Social at Calvary Parsonage.  
The ladies of Calvary Methodist Church are invited to meet at the parsonage at 4 o'clock Thursday afternoon to enjoy a social hour.

FRIDAY.  
Lycium Concert.  
The next number of the Lycium Course which is being given at Danville High School, under the auspices of the High School Parent-Teachers' Association, will be presented next Friday evening, January 18, at 8 o'clock, in the school auditorium. The Cypre Quartet will present a varied program of music and readings. The first part of the program will be selections from the most noted American composers and the second part will include large melodies of all nations.

It is hoped that a large audience will be present to enjoy what promises to be a very high type of entertainment, sufficiently varied to please every one.

The proceeds of this entertainment will be added to the fund being raised by the P. T. Association for equipping the school cafeteria in the Hines building.

Westbrook Concert Company.  
On Friday evening, February 15, Westbrook Concert Company will present one of their best programs at Danville High school. Several new features will be introduced and the affair which is being given for the benefit of the school annual and the school paper is already being looked forward to with a great deal of pleasure by the patrons and students of the school.

On Friday, January 18, a concert will be given at Whitwell school.

No. 9, Mrs. C. E. Harper, leader, with Mrs. Harper, 205 Broad street.

Circle No. 10 will meet Monday evening at 8 o'clock with Misses Annie and Alice McKinney, 134 College avenue.

First Baptist Sunday School Culture Week.  
Sunday school study classes at 6 p. m. continuing through the week.

The Rector's Aid society of Epiphany church will meet at 4 o'clock Monday afternoon at the home of Mrs. Tredway Gravelly, 834 Main street.

Red Cross Work Rooms.  
The local chapter of the Red Cross under the supervision of Mrs. H. L. Martin, will open the work rooms at Calvary Methodist church, Monday, January 14. The first assignment of work will be a large supply of infants' garments to meet the needs of the poor in Danville. Other assignments will be given out later.

TUESDAY.  
D. A. R. Meeting.  
The regular monthly meeting of Dorothea Henry Chapter, Daughters of the American Revolution, will be held at the residence of Mrs. W. T. Hughes, Regent of the Chapter, Tuesday afternoon, January 15.

The meeting will begin promptly at 2:45 o'clock. After the business meeting, Col. W. M. Kemper, of Danville Military Institute, will give a talk on the life of Benjamin Franklin. National officers of all patriotic organizations have requested that all chapters observe, or commemorate in an appropriate way, the birthday of Benjamin Franklin. It will be remembered that last October witnessed the two hundredth anniversary of his arrival in Philadelphia, a penniless boy who afterwards by persistence in following an "idea" accomplished results, the effect of which projected his name and influence to the end of the world. All members of the chapter are requested to be present at this meeting.

WEDNESDAY.  
The Wednesday Club will meet at 2:45 o'clock in the club rooms. The program will be in charge of the History Circle, Mrs. Frank Talbot, chairman. Mrs. Louis N. Kaufman, Mrs. Louis N. Dibley, Mrs. Rucker Penn, Mrs. Penn will give a talk on "Spanish Missions."

THURSDAY.  
Dr. Smith To Lecture.  
Dr. William C. Smith, Dean of the College of Liberal Arts and Sciences, and Head of the English Department of North Carolina College for Women, Greensboro, N. C., will give a lecture on "The Influence of the Bible Upon Shakespeare and the English Drama." The lecture will be given in Mount Vernon Methodist church at 8 o'clock, p. m., Thursday, January 17th. The public is cordially invited and seats are free.

The lecture is presented under the auspices of the Shakespeare Club.

Travellers Aid Meeting.  
The Travellers Aid Society will hold a meeting on Thursday afternoon, January 17, at 4 o'clock, in the Ladies Parlor of the First Presbyterian church. As no meeting of the society was held in December, all members are earnestly requested to be present at this meeting in order that plans for the year's work may be discussed.

Reception at Mt. Vernon.  
Invitations have been issued by the Official Board of Mount Vernon Methodist Church, to a reception which will be held in the auditorium of the Sunday-school on the evening of Friday, January 18th, at 8 o'clock, in honor of Dr. and Mrs. Samuel T. Senter.

Afternoon Social at Calvary Parsonage.

## DEBUT

Miss Elizabeth Taylor Adams, debutante daughter of Mr. and Mrs. John T. Adams, will make her bow to Washington society this season. Her dad is chairman of the Republican National Committee.

Reception at Mt. Vernon.  
A committee appointed by the Board of Stewards has issued the following invitation:  
To meet Dr. and Mrs. Samuel T. Senter. The Official Board of Mount Vernon Methodist church requests the pleasure of your company at a reception to be held in the Sunday school auditorium on the evening of Friday, January eighteenth at eight o'clock.

Slayton—Wiles.  
A marriage of interest to friends of the contracting parties in their respective communities, was performed Thursday when Miss Sarah Wiles, of Ringgold, became the bride of Oscar T. Slayton, of Sutherland, the wedding took place at the residence of Rev. J. Clyde Holland, on North Main street, at three-thirty o'clock in the presence of several friends of the young party. The bride, an attractive young lady, is the daughter of Mr. and Mrs. Henry Wiles. The groom, an esteemed young farmer, is the son of Mr. and Mrs. J. J. Slayton. Those accompanying them were Mr. and Mrs. F. T. Walton, B. H. Wiles, J. J. Wiles, Miss Minnie Slayton, Miss Jessie Slayton, Miss Esther Slayton, Mr. and Mrs. Jack Davis, Miss Ruby Tate, Preston Clark and Mr. and Mrs. M. C. Clark. Mr. and Mrs. Slayton will make their home near Sutherland.

SHAKESPEARE CLUB.  
Mrs. J. L. Bagby was hostess to the Shakespeare Club at her home, 130 Sutherland Avenue, Thursday afternoon. Charles G. Evans, president of Randolph-Macon Institute, talked on Current Events, giving a review of the breaking of the deadlock in 1923, speaking for an hour, and holding the undivided attention and interest of his hearers by his own enthusiasm, and belief in the social, political and economic importance of the events of which he spoke. Mr. Evans gave a very comprehensive review of the condition in the old world as a result of war and the disappointment of those looking on and hoping for world peace. Speaking of the most recent events he called attention to the breaking of the deadlock in the Senate by the selection of Senator Smith, Democrat, the opening of the Virginia Assembly, the oldest legislative body in the United States, and the governor's message.

The release of Brigadier General Butler of the United States Marine Corps, for the purpose of directing a clean up of Philadelphia, and enforcement of prohibition.

Dr. Gillespie, suggested by his death which occurred on Wednesday, also speaking briefly of Arthur Nash, leading clothing manufacturer, of

The first part of the program will be selections from the most noted American composers and the second part will include large melodies of all nations.

It is hoped that a large audience will be present to enjoy what promises to be a very high type of entertainment, sufficiently varied to please every one.

The proceeds of this entertainment will be added to the fund being raised by the P. T. Association for equipping the school cafeteria in the Hines building.

Westbrook Concert Company.  
On Friday evening, February 15, Westbrook Concert Company will present one of their best programs at Danville High school. Several new features will be introduced and the affair which is being given for the benefit of the school annual and the school paper is already being looked forward to with a great deal of pleasure by the patrons and students of the school.

On Friday, January 18, a concert will be given at Whitwell school.

Reception at Mt. Vernon.  
Invitations have been issued by the Official Board of Mount Vernon Methodist Church, to a reception which will be held in the auditorium of the Sunday-school on the evening of Friday, January 18th, at 8 o'clock, in honor of Dr. and Mrs. Samuel T. Senter.

Afternoon Social at Calvary Parsonage.  
The ladies of Calvary Methodist Church are invited to meet at the parsonage at 4 o'clock Thursday afternoon to enjoy a social hour.

FRIDAY.  
Lycium Concert.  
The next number of the Lycium Course which is being given at Danville High School, under the auspices of the High School Parent-Teachers' Association, will be presented next Friday evening, January 18, at 8 o'clock, in the school auditorium. The Cypre Quartet will present a varied program of music and readings. The first part of the program will be selections from the most noted American composers and the second part will include large melodies of all nations.

It is hoped that a large audience will be present to enjoy what promises to be a very high type of entertainment, sufficiently varied to please every one.

# The Nut Cracker

by Joe Williams

We suppose it's perfectly proper to refer to bathing girls in the films as comic strip artists.

They're going to let Harry Thaw out again and then maybe the scarcity of good left handers won't be so noticeable.

After all the trouble they're gone to it would be rather disconcerting if the explorers found a note on King Tut's tomb reading: "Out to lunch. Back at 2 p. m."

There is some consolation in the knowledge that when the boys finally do get to King Tut he may not be in a mood to discuss the stylistic controversy.

Despite the fact that Tilden has led the tennis players for four straight years, his friends insist he has a very bright future.

McGraw bought a minor league phenom the other day and paid only \$50,000 for him. The phenom should demand an apology.

These amateur athletes would probably get along a whole lot better if they'd join the American Federation of Labor.

Among those who think Charley Paddock should be barred are the nags who'll have to face him in the 109-yard dash.

The crutche Mr. Benny Leonard writes that the wickedness of stage life is grossly exaggerated. Oh well, we all have our little disappointments.

So far as most of the wrestlers who come from that country are concerned, the Turkish bath is purely an American institution.

It appears that Tex Rickard instead of sugaring the New York politicians simply told them to lump it.

Mr. Rickard is said to be an honest guy and if this is so of course he has no business in the prize fight racket.

## Burns In Demand After Years of Ordinary Play

BOSTON, Jan. 12.—Very often in baseball a player doesn't become valuable until he has been shunted around to a number of teams. There is the case of First Baseman George Burns of the Boston Red Sox.

Burns was originally a member of the Detroit Tigers. After being carried for several years and failing to make a regular base, Hughey Jennings then managing Detroit, sent Burns to Philadelphia.

Later Connie Mack handed him over to Cleveland in a trade. A few years with Cleveland and Burns was again unable to play.

## STONEHAM, OWNER NEW YORK GIANTS, HAS BEEN INDICTED

(By the Associated Press.)

NEW YORK, Jan. 11.—Charles A. Stoneham, part owner of the New York Giants, and several others were indicted in the federal court today on charges of having used the mails to defraud in connection with the conduct of C. A. Stoneham and Company and E. D. Dier and Company, former brokerage houses.

The government regards return of the indictments as an important step in the campaign to rid New York of bucketshops, said Federal Attorney Wm. Hayward. He promised an early trial.

Stoneham and his associates were charged with defrauding customers by transferring their accounts, totaling several million dollars from Chas. A. Stoneham and Company, to Hughes and Dier, later E. D. Dier and Company, minus the stocks.

The indictment also charged that Stoneham received \$2,100,000 from 2,930 customers for investment and that he failed to purchase securities or having purchased them, sold them unlawfully. The Dier company failed for several million dollars.

**Egyptian Cotton Crop**  
CAIRO.—The ministry of agriculture estimates that 1923 cotton crop of Egypt at 5,844,000 cantars, a centar being equal to 13.29 pounds.

**Surplus Women**  
LONDON.—Figures show that since 1911 the males in the counties of Lincolnshire and Rutland increased by 14,011 to 805,564 and the females by 22,261 to 314,974.

O'HEARN GETS INTO ACTION

CHARLEY O'HEARN.

Forced to the sidelines in football with a cracked ankle, Charley O'Hearn, Yale's most versatile athlete, is now back in harness leading the Blue hockey team.

O'Hearn got into competitive action for the first time this season in a recent match against the Cleveland collegians and gave a brilliant performance.

O'Hearn probably would have been an outstanding star in the Yale basketball team if he hadn't suffered a serious physical mishap.

## BARNEY GOOGLE and SPARK PLUG

And Now Barney Connects With One Big Pay Day

## GAMES FOR THE SAKE

(Copyright 1924, By The Bee)

NEW YORK, Jan. 11.—"The Door Pro Gelfin" He blew across the ocean in the spring of nineteen-ten.

From a course in bonny Scotland widely known as Hiclan' Fen. What clothes he owned were on his back—except within his bag.

A pair of threadbare breeches, a jacket mostly rag.

A bag of clubs he carried that bore no stamp nor brands.

For he had made them all himself with his own skillful hands.

He had no pride of bearing, no brag-gadocio.

He was just MacNab, a dour crab, a bally Scottish pro.

That line of dots betokens the passing of the years.

Since Jim MacNab arrived here the smallest of small beers.

Jim's pro at Grassy Meadow now and some may be seen.

At practice on the fairway, or posing on the green.

Not even the proudest members dates breathe to him a word.

Of going a-hunting for certain things this toplofty bird.

He gives his club distinction because of his prestige.

He knows the subtle meanings of the phrase noblesse oblige.

Eust now he'll be in Texas or Florida so say.

His fee five hundred iron men each time he deigns to play.

In garb no bird of plumage has a feather on this toff.

His clothes come straight from Bond street, no worry and laugh that off.

Ten years ago he couldn't spell and scarce knew a from fced.

But now his learned screeds on golf by everyone are read.

In short MacNab has learned the fact that in the U. S. A.

The guy who sticks his chest out is the guy who makes his way.

The U. S. L. T. A. ruling that players may not write about tennis will be a hardship upon certain tennis players. The U. S. L. T. A. has ruled that players may not write about tennis will be a hardship upon certain tennis players.

The U. S. L. T. A. ruling that players may not write about tennis will be a hardship upon certain tennis players.

The idea being the waste of time, words and not a paper in claiming a self-evident fact.

Yet, generally speaking: It's not the man who always wins who gains the victor's bay.

There are things that count—aside from scores.

Deny it those who may.

"Zupke," continues the panegyrist, "hasn't piled up his victories by playing soft schedules." True enough. Yet a saying is attributed to Ch. Doble that ten years from now fans will be so impressed by the record that they will never ask who the winning team met.

Schoolboys and girls who attain athletic greatness offer complications to schoolmasters that are almost too great for them to solve, unless they do the Latin school principal.

Did in the case of William L. Lawrence Scribbling. William Lawrence has got to come to school regular, or quit.

And now there is Miss Helen Willis, a student at the University of California, who is named by the Olympic committee for tennis. Miss Willis evidently must also choose between the classic muse and Suzanne Lenglen.

Could Miss Willis defeat Suzanne? If she went over? No two tennis critics agree on this, evidently. This much may be said: playing Suzanne in France and in this country are two different propositions.

While climatic changes make no difference in the case of golf balls they seem to affect tennis balls seriously. British women who played here last year say the balls are much lighter in this country and the turf harder.

By LAWRENCE PERRY (Copyright 1924, By The Bee)

NEW YORK, Jan. 10.—With Willie Rholes relinquishing his project of becoming an American citizen and returning to his native Finland where he is kept, even as Hannes Kolehmainen was—trainers, coaches and American Olympic officials are on the lookout for some distance runner to take his place.

The words, "hereabouts are not full of runners who might even be termed prospects. But there are hopes that some athlete will be developed who will overcome migratory Rholes that he did not take with him to Finland the art of producing distance champions.

In fact at least one runner seems to warrant something more than vague hopes. He is J. Verno Routh, of Johns Hopkins. He is now being groomed for the 1200, 1500 and 1600 meter events at Paris.

New York track enthusiasts will remember Routh's work in the international cross-country championships at Van Clief and Park which he won in masterly fashion. Routh likes extremely long distances, but is sinking his desires in the interest of America's fortunes in the Olympics.

Wisconsin, under the influence of Harry Vail, is working hard to bring about a revival of Nordic prejudice on the water. Certainly, if there ever was a university where the aquatic idea should flourish it is a waterpound.

## MOTORISTS MAY GET MORE OUT OF THEIR FUEL BY 1925

The year 1924 will witness the beginning of a more powerful and more efficient motor-fuel than has heretofore been in use.

This prediction is made on the basis of tests now being conducted and uses already being made, of new automobile fuels.

Large oil companies, here and there, are trying out a new form of gasoline in which some thyl fluid is injected. In the south, a similar fuel is being used. In the gas-well regions of Ohio, Pennsylvania and West Virginia, a process by which gasoline can be extracted from gas is being tested.

Other compounds are introduced as a regular intervals. All promising to reduce the cost of fuel for motor cars, produce more mileage and cause less carbonization.

Yet, from the Bureau of Mines comes the assertion that coarse gasoline isn't any worse than the refined or "high test" variety, that it works as well as a cleaner fuel.

But the advantage of the costlier fuel lies in its capacity to start a cold motor sooner than the other, and to keep the cylinders comparatively free from carbon. So far as mileage is concerned, there seems to be no advantage.

## Rickard Says He Has Practically Arranged Bout

(By the Associated Press.)

NEW YORK, Jan. 11.—Enlivened by Ted Rickard's announcement that he had practically closed negotiations for a return heavyweight championship match between Jack Dempsey and Tommy Gibbons, speculation was aroused today over other features in prospect for the 1924 heavyweight program.

Rickard revealed no further details of his plans for the Dempsey-Gibbons match, terms for which are accepted yesterday by Eddie Kane, the St. Paul challenger's manager, with the understanding that the battle will be held "somewhere in the Metropolitan area," either late in May or early in June.

Jack Kearns, the champion's business mentor, has tentatively agreed to the match, but has postponed discussion of final details until his return from a trip to Hot Springs, Arkansas.

Neither manager has as yet signed up, but Rickard said he had satisfied both as to terms and that only minor details remaining to be worked out. In some quarters it was reported that Gibbons had been guaranteed \$100,000.

Challenges for fights from two other rivals came to Kane and Gibbons today, the first was from Harry Wills, heavyweight who has been an aspirant for heavyweight match with Dempsey.

The other challenge was from Gene Tunney, American light heavyweight champion, whose manager, Billy Gibson, offered to sign with Gibbons for either an indoor or an outdoor bout.

Two prospective matches for Tunney have fallen into the discard lately for various reasons. Legal obstacles and a break with his manager resulted in the withdrawal of weight titleholder, from a match with Tunney, while Erminio Spalla, European heavyweight champion, sailed for South America to box Luis Firpo, after Spalla's American representatives had signed for him to oppose Tunney here.

Word that Firpo is eagerly awaiting his return campaign in this country was brought back today from the Argentine by Juan Homes, representative of Rickard. Firpo's plans are somewhat indefinite, according to Homes, but he is anxious to have one or two stiff bouts before engaging Dempsey again in a fight which will probably come as the climax to the outdoor season in September. Harry Wills, Canadian heavyweight, and Jack Renaut, Canadian heavyweight, are two likely opponents for the "Wild Bull."

Rickard also is endeavoring to arrange one or two bouts in which Georges Carpentier will stage an American comeback. The Frenchman has issued a sweeping challenge to American light heavyweight talents and possibilities of bouts with Tunney, McFigue or Gibbons are under consideration.

## Don't Say "Boy, My Niblick," Say, "My No. 9 Iron"

Mr. and Mrs. Golfers: You want to be fashionable, don't you?

Well, here is a little suggestion that may save you untold anguish and embarrassment on the links.

Never, never, refer to your iron clubs by such ordinary names as masher, midiron, pitcher, niblick, etc.

In our best golfing circles this is deemed to be very poor form, and is simply not being done anymore.

Numbers have come to take the place of these plain names. Hence a No. 1 iron is a driving iron, No. 2 a midiron, No. 3 midmasher, No. 4 masher iron, No. 5 masher, No. 6 masher niblick, No. 7 pitched, No. 8 jigger and No. 9 niblick.

Remember in the future the correct form is as follows:

"Boy, my No. 9 iron, if you please. (Darn this trap.)"

The latter is undertones, preferably.

**PERHAPS EDDIE IS SORRY**

Had Eddie Gharrity, catcher of the Washington Nationals, known that Donie Bush would not manage the team in 1924, he probably wouldn't have jumped to the Industrial League in the west that offers such fancy salaries to discontented major leaguers.

Bush, as manager of the Nationals last year, was strong for Muddy Ruel as catcher, seldom giving Gharrity a chance. Eddie felt that he was being discriminated against and jumped at the chance to quit the majors.

OH, YOU WEENIE

**YOUNG MAN - SEE IF ANY MOVIE QUEENS ARE OUT IN THE HALL - IF SO SEND IN THE BLONDES AND BRUNETTES. THE REST CAN GO HOME**

**Cafe of Household Pets**

**GOLDFISH III**

Most aquarium fishes desire a variety of foods, and the aquarist should endeavor to imitate nature. Whatever foods are used it should always be borne in mind that a balance of vegetable, animal and mineral content is required.

Goldfish should be fed every day in summer and every other day in winter. Substitutes for natural food are scalded and dried earth-worms, dried liver, fish roe, ant eggs, rice flour, pea flour, etc.

A well-known fish food consists of five ounces of pea flour, four ounces of rice flour, two ounces of dried and powdered fish flesh, one-half ounce of finely divided dried meat fiber, two ounces of dried Daphnia ("ditch snails"), one and one-half ounces of ant eggs, one ounce of dried powdered shrimp or lobster, two raw eggs together with the powdered shells, one-fourth ounce of table salt, one-eighth ounce of Epsom salts and sufficient gum arabic in boiling water to bind the mass. This is thoroughly kneaded into a thick dough, dried at low temperature and crushed into convenient particles, making about a pound of dried food.

Prepared foods, containing many of the ingredients mentioned, are on the market and their use can be recommended. The main thing to guard against is the giving of more than the fish will consume at one feeding.

Illness among goldfish becomes apparent in many ways, but as a usual thing, the fins are bloodshot, the dorsal fin droops and the affected fish is inclined to rest on the floor of the aquarium.

Sudden changes in temperature produce the diseases known as "white fungus" and "tail rot." When a whitish coating or splitting of the fins is noted, the affected fish should be placed in another jar containing water just salty enough to be noticeable to the taste, and kept there until cured.

Fish subject to a higher temperature than that which they were accustomed to are apt to develop fungus or other diseases. When fish are brought in from the open the temperature should be gradually lowered and overcooling should be avoided. At the first indication of fungus (white spots on the fins) the

## DAILY PUZZLE

**WETHEVRPRECTM?**  
**YOLVRLGXMNTLAWEN!**

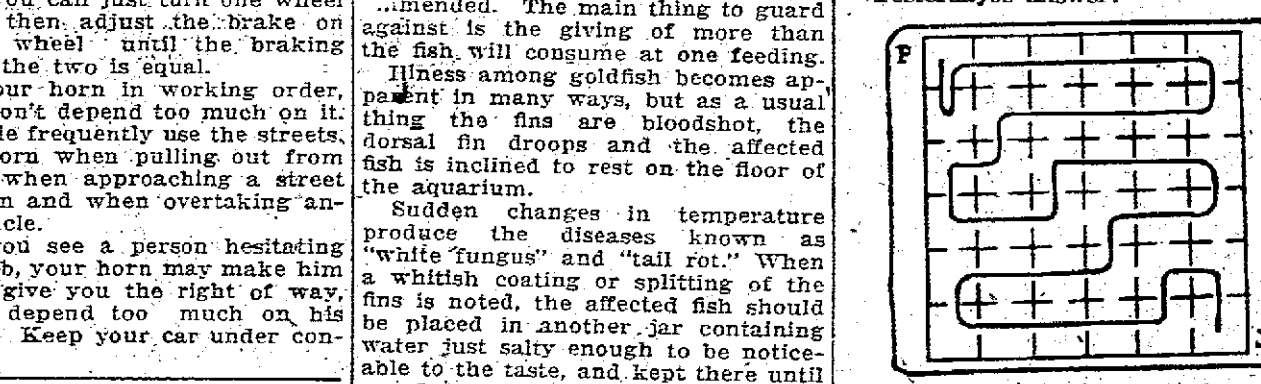

By inserting one letter of the alpha bet a number of times among the letters given above, two perfect sentences will be formed. The puzzle is based upon the old inscription on a monastic wall, which read:

**PRSVRYPRECTMVRKFTSPROPTSTN.**

When the letter "E" was distributed through the inscription, it read: "Peu severs, ye perfect men; ever keep these precepts ten."

Bearing the old puzzle in mind, so if you can decipher the new one!

Yesterday's answer:

The person's task was to go from cell "P" to cell "T" without entering any cell more than once. His first step was to enter the cell directly below "P," then he went back into cell "P." This was impossible, because it was the first and only time he entered cell "P" as he was there at the start. The diagram shows the rest of his trip.

**VALVE-IN-HEAD**

**CARS**

## Another Reason Why —

The Buick valve-in-head engine has been recognized for more than twenty years as the most economical and efficient power plant. With its reduced waterjacketing space, more heat is retained in the cylinders and more power is therefore generated.

Refiner buys 49,000 bags Cuban raw sugar prompt shipment at 4 % cents cost and freight.

House immigration commission decides on quota of two per cent. of foreigners here in 1930 with minimum quota of 200 annually.

Bladstreet's finds whole-along quiet but marked activity in steel and automobile trade.

Dun's reports 543 failures for week against 425 last week and 546 year ago.

Dun's finds revival from year-end let down in most industries but commitments limited mainly to immediate needs.

Average 20 industrials, 94.46; up, 23 20 rails, 85.59; off.

## MORNING STOCK LETTER

Thompson & McKinnon

NEW YORK, Jan. 12.—Bradstreet's weekly review this morning makes pleasant reading, confirming as it does the sound business and financial picture of the country at the present time and forecasting a spring business that will not be disappointing. The abundance of free capital has revived hopes that the redoubtable rate will be reduced if not at next week's meeting, at least in the near future.

The figures published by the steel corporation showing the small percentage of brokers holdings of their common stock confirms the opinion prevailing for some time that stocks have been leaving the street and going into strong boxes.

The Times this morning says "it is remarkable how easily specialty stocks have advanced. As for the general list the average of 30 representative stocks at the close of business yesterday and advanced a little less than one and one-half points since the first of the year." As a matter of fact, the average stocks—half rails and half industrials—used by the Times shows a net gain of .04 as a result of yesterday's trading.

Of late the market has made but little progress. This suggests, is the stimulant as efficacious as before.

## MORNING COTTON LETTER

Thompson & McKinnon

NEW YORK, Jan. 12.—Continued liquidation of stale long accounts was responsible for the weak undertone of the cotton market yesterday. All the news was favorable but market does not respond to bullish news at the moment.

Believe prices are getting to a level where investors will very likely be interested and think at any moment the cotton market is due for a violent upturn.

## LIVERPOOL COTTON.

## IMPORTANT ADVANCE IN TREATMENT OF CANCER

NEW YORK, Jan. 12.—An important advance in the X-ray treatment of certain forms of cancer has been made possible by a new type of X-ray tube, according to Dr. Francis C. Wood, Director of the Crépier Institute of Cancer Research at Columbia University, New York. The new tube radiates five or six times as many curative rays as the old type of tube, which means that patients need be exposed to the rays only about 20 minutes instead of two or three hours as at present; that five or six times as many patients can be treated in a day by each equipment; and that the cost of each treatment is correspondingly reduced.

The new tube, which was made especially for me by the research engineers of the Westinghouse Lamp Company, states Dr. Wood, "is capable of giving out five or six times the amount of X-rays which the ordinary tube does. It will enable specialists to treat very much larger number of people and treat them much more effectively than can be done at present. Exposures of two or three hours are now necessary, but the new tube shortens this time to twenty minutes and will be an immense benefit to sufferers from cancer."

"Another advantage of the new tube is its longer life. The present tubes wear out very rapidly, and as they cost over \$250 each, the expense of treatment is necessarily very high. One of the new tubes, however, has been in use in my clinic at St. Luke's hospital over three months and is still proving entirely satisfactory. This, together with the fact that it reduces the length of each treatment, naturally reduces the cost of treatment."

"It must be understood that in only certain cases can cancer be permanently cured by X-rays. Surgery still remains our best method of handling this disease. We are only beginning our work, however, and the great improvements now being made in X-ray apparatus warrant hope that great advances may be expected in the future. Possibly we shall be able to explain the setback and trading was comparatively quiet after the first half hour.

## Dog Depredations Cost County \$256

Damage done by dogs among flocks of turkeys in Pittsylvania during the past few months has cost the county treasury the sum of \$256.55, this amount being allowed to the owners of the birds by the board of supervisors at their recent session, under the State law. A total of 85 turkeys were killed by dogs. The amount allowed the owners ranged from \$3.00 to \$168.00 the latter sum being awarded to J. C. Motley who showed that 42 of his birds had been killed by dogs. The board also has paid out \$169.10 for hawk owl and crow scalps under the game law.

## NEW ORLEANS COTTON.

(Associated Press Leased Wire)

NEW ORLEANS, Jan. 12.—A better Liverpool market than expected caused a rise of 12 to 25 points in the price of cotton here on the opening today but the market was full of selling orders, under which it almost immediately fell off. At the end of the first half hour of business the trading positions were 7 to 8 points lower than the last sale of yesterday. March rose to 34.10 and then fell to 33.57. October rose to 27.32 and fell to 27.33. Year of an unfavorable report on December domestic consumption was the main influence against values.

March ..... 34.03  
May ..... 33.78  
July ..... 32.99  
October ..... 27.52

## NEW YORK STOCKS.

(Associated Press Leased Wire)

NEW YORK, Jan. 12.—Stock prices displayed a firm tone at the opening of today's market. There was a fair accumulation of buying orders in the oil, equipment and automotive issues. American Woolen advanced a point and United States Steel common again crossed par.

## Free Treatment

For a limited time only I will give a free treatment to dogs that are having fits. I will also pay \$1.00 for each dead dog that has died from that cause. There is no bad after effects caused by this treatment.

The following is a testimonial of Mr. J. P. Stone, 171 Stokes St.:

"For some time my hound dog had fits every time I went hunting with her. She would have a fit and I took her down to Nanzetta, The Indian Doctor and he gave her a treatment and expelled six tape worms from her. I also had a dog prior to this that died from having fits and Nanzetta dissected the body and extracted 40 Tape Worms from her."

One very prominent citizen of Danville saw these six worms while alive. Name furnished on application.

## COMING MONDAY:

THOMAS MEIGHAN IN "WOMAN PROOF." With a Fine Cast Including LILA LEE.

## NEW YORK COTTON.

(Associated Press Leased Wire)

NEW YORK, Jan. 12.—Yesterday's sharp decline was followed by considerable covering at the opening of the cotton market today. First prices were steady at an advance of 7 to 25 points in consequence with March selling up to 34.10 and May to 34.20. There was further liquidation but it was smaller in volume and the early buying was promoted by rallies from an early decline in Liverpool and reports that preparations were being made to ship about 50,000 bales of cotton out of the local stock. After the first flurry of covering was over, however, the demand tapered off and prices reacted with March selling down to 33.84 and May to 33.95. No special news factor was mentioned to explain the setback and trading was comparatively quiet after the first half hour.

## SHIP IS RELOADED

(Associated Press Leased Wire)

BALTIMORE, Md., Jan. 12.—The freight steamship Escher Dollu, which stranded last Wednesday near the mouth of the Baltimore harbor, was reloaded yesterday after about 900 tons of cargo had been removed. The vessel, which was bound for Havana and Los Angeles, returned to this port to be surveyed and re-load cargo.

## Speaking of Safety

## Why Contract for Coal?

Coal peddling is a great business—for the peddler. But its hard on the engineers who must keep up the efficiency of their power plants on coal that they know little or nothing about.

A contract for Admiralty provide, your engineer with a fuel that he can bank on to produce a fixed amount of horsepower per ton, and enables you to determine your operating costs accurately.

Admiralty select burning high quality coal, of remarkable uniform quality. It is an important factor in making the use of power where boiler room efficiency must be maintained.

## New American Citizens Give Court New Flag

## Voted Novelist in Love Tangle

Mrs. Ellsworth Bassett and son, Adrian.

Nina Wilcox Putnam  
Nina Wilcox Putnam, novelist whose divorce was recently rescinded, pleaded last fall with Mrs. Ellsworth Bassett of Madison, Conn., wife of her chauffeur, to divorce husband that novelist might marry him. Mrs. Bassett refused, but husband left her and is now with Mrs. Putnam at Delray, Fla.

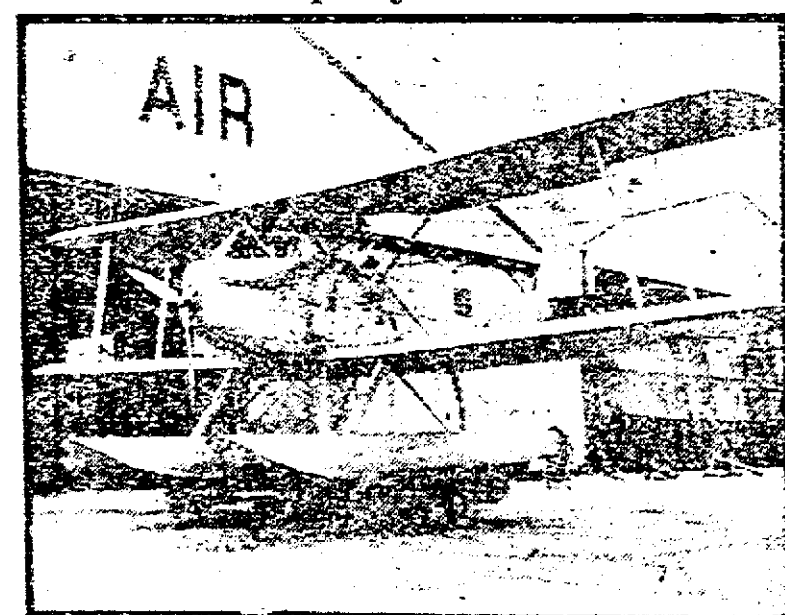

Ellsworth Bassett

## Watch Out!

W. S. Silkworth, member of American Olympic trapshooting team, tried out sight on cameraman while practicing with team mates at Travers Island, New York.

## To Accompany Shenandoah

This new C-S type plane is being put in shape to accompany the Shenandoah on the navy's great polar exploration trip, personnel of which has been picked.

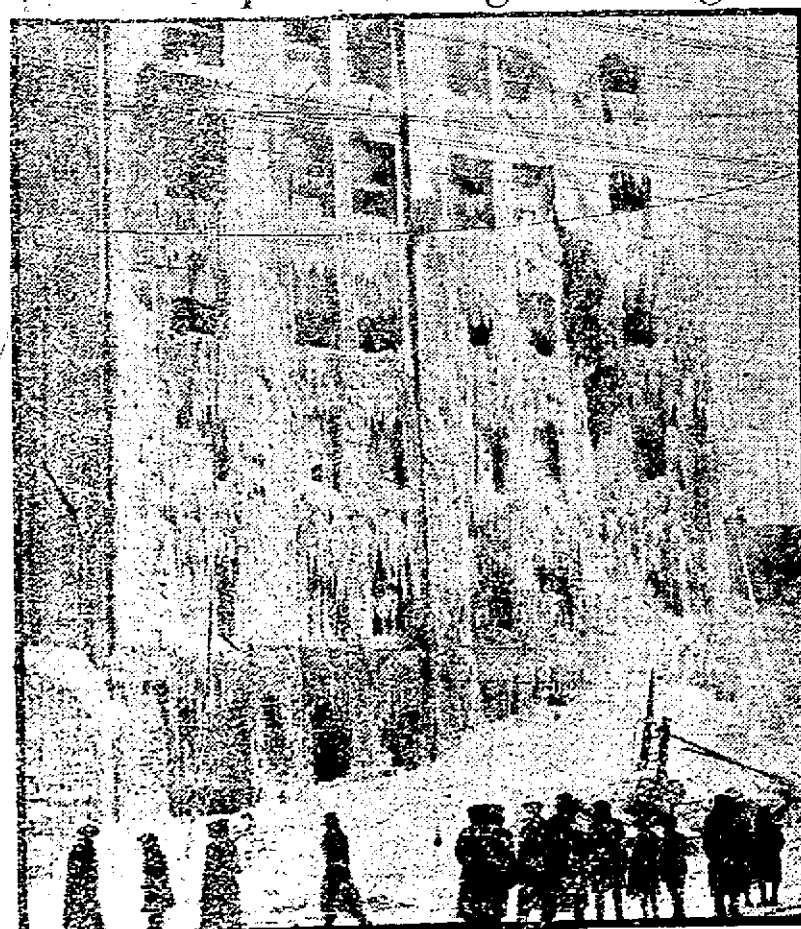

(By Pacific & Atlantic)  
In appreciation of honor accorded them in permitting them to become American citizens, 200 Poles who took the oath of allegiance in Chicago presented the court with an American flag of huge dimensions.

## Graceful Canadian Lad Wins Skiing Honors

(By Pacific & Atlantic)  
As graceful as a bird and with the speed of the wind, Arthur Graney of McGill University took off for winning leap of intercollegiate ski jumping contest held at Lake Placid, N. Y., mecca of Eastern winter sport enthusiasts.

## Ice Drapes Burning Building

Zero weather made task of firemen a frigid one when Tees & Perse match factory in Winnipeg, Canada, was destroyed by fire, with \$750,000 loss. Fire lasted twelve hours. Photo shows ice draped ruins of factory.

## Investigation

(By Pacific & Atlantic)  
With the arrival in Los Angeles of Wil H. Hays, head of the Motion Picture Producers and Distributors' Association, a new investigation of the Dines-Normand shooting affair is scheduled to be launched.

## Tangle

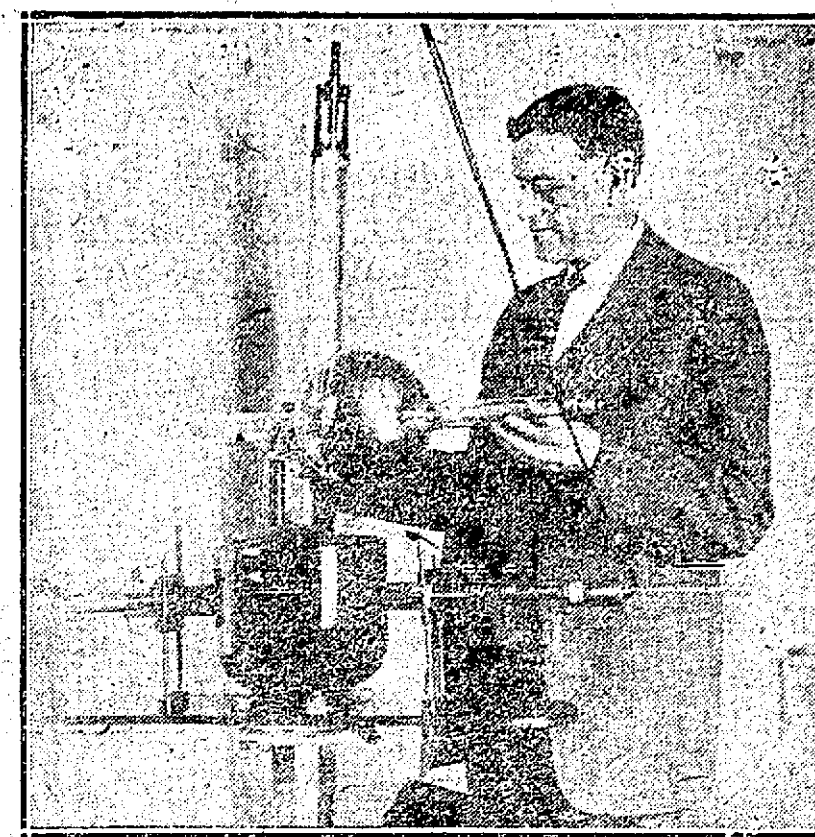

(By Pacific & Atlantic)  
Mrs. Eleanor Brewster, second wife of Eugene V. Brewster, lawyer and wooer of beauty, will block his attempts to divorce her and will try to discover how he can afford \$250,000 love nest for pretty Corliss Palmer, when a short time ago he pleaded he was broke.

## Would You Think Weather Was Zero?

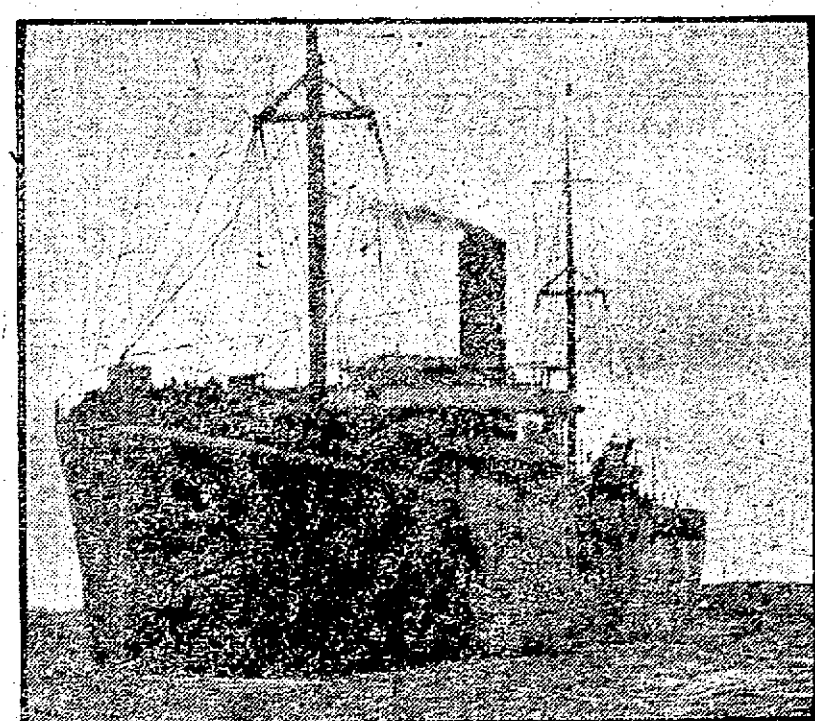

(By Pacific & Atlantic)  
In icy waters of Atlantic Ocean, H. L. Wagner (left) and S. L. Slatkow, lifeguards, took plunge at Coney Island, N. Y., with temperature 8 above zero.

## New Treatment for Cancer

(By Pacific & Atlantic)  
Dr. Francis C. Wood, director, Crocker Institute of Cancer Research at Columbia University, New York, with new X-ray tube made especially for him by Dr. C. T. Ulrey, research engineer of Westinghouse Lamp Company. Dr. Wood declares tube is most important development for cancer treatment of this generation.

## And Then She Sank

(By Pacific & Atlantic)  
This remarkable photo of Shinkoko Maru was taken from coast guard ship off Alaska just after towline snapped. Unable to get another line aboard, liner foundered.

## Is Pittsburgh Wet? Yes!

(By Pacific & Atlantic)  
Flood waters on the Monongahela and Allegheny rivers were receding yesterday, but on some Pittsburgh waterfront streets this still is only way to travel.

## Paris Under Water When River Swells

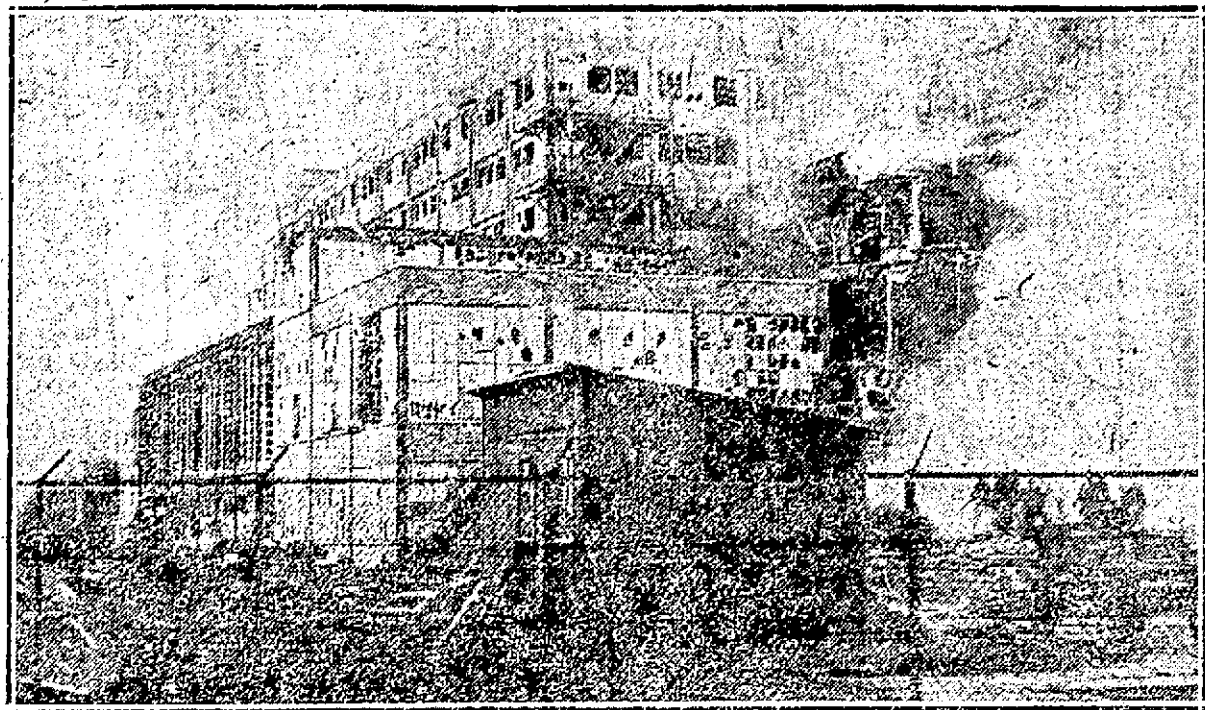

Many Paris factories closed as the swollen River Seine drew close to record flood stage. In the first photo to arrive here of the river flood, the river boat landing opposite the Louvre is shown submerged to its roof.

BY JAMES W. DEAN

NEW YORK, Jan. 12.—What does a Great Lover think about? Or maybe the question should be—how does he think?

Perhaps this generation never would know if it were not for Rudolph Valentino, dream sheik of a million sweet patooties. Rudy has just issued a volume of patent-leather poems called "Day Dreams" (McFadden).

Here's a sample:

"Your Kiss,  
A flame  
Of passion's fire  
The sensitive Seal  
Of Love  
In the desire,  
The fragrance  
Of your Caress:  
Alas,  
At times  
I find  
Exquisite bitterness  
In  
Your Kiss."

Hot diggity dog! You can walk upstairs on that one! It has form, "neverthing!"

However, Rudy is a modest youth. In his preface he says, "I am not a poet." Which statement differentiates him from thousands of other youths and maidens who contribute sentiment in broken lines to newspapers throughout this fair land.

And after this one is published, broadcast, we'll find all the drug store cowboys trying the same stuff:

"Your Eyes,  
Mystic pools  
Of beautiful light.  
Golden brown  
In color  
Deep  
Yet, ambe, clear.  
Unshadowed  
By a frown,  
Fathomless  
Wherein  
My senses  
Drown.  
Your Eyes  
Four Lips  
Twin silken petals  
Of a dewy rose.  
Altar  
Of the heart  
Where love  
Kindling desire  
Worships unafraid.  
Crucible  
Of  
Passion.  
The rose in masquerade.  
Your Lips."

The Passionate Poet, however, also turns to things more homely and worldly than the divine emotion. For instance, he rhymes about "Patchwork Quilt," "Imperialism," "Radio," and "Poverty."

He is also an epigrammatist, as if

were. Here are a few choice morsels: "Patchwork—The Emphasis—repartee of Love."  
"Woman, the unreasonable Reason for the Great Reason, which the sages call Life—Others not knowing call it Love."

And there's a prose poem or two. One is called "Dust to Dust." And thus it begins, "I take a bone—l gaze at it in wonder."

**RUBBISH ABOUNDS IN BERLIN AS CITY STREETS GO UNSWEPT**

(Associated Press London Wire)  
BERLIN, Jan. 11.—Time was when the streets of Berlin were kept spotlessly clean; that was before the war when the municipality maintained a street cleaning force of 2,400 men. Now this group of street cleaners numbers under 300, and the result is visible on all sides. Litter and rubbish abound.

During the war, when most of the able-bodied men were at the front, civic pride continued among the citizens and several of the principal streets were kept clean by volunteers, many of them women. But under present circumstances, with the mark jumping about and housewives compelled to stand in line every day for hours for the mere necessities of the table, civic pride has disappeared. There have been no volunteers for street cleaning for many months, even though thousands of men loaf about Berlin.

**RABBITS RAISED TO FEED VALUABLE FUR ANIMALS**

(Associated Press London Wire)  
WRANGLE, ALASKA, Jan. 11.—The United States biological survey has started stocking islands in this vicinity with rabbits, in the hope that they will become established well enough to provide a continuous supply of food for carnivorous animals with valuable fur.

Two kinds of rabbits have been placed on the islands, the Snowshoe, from the vicinity of Anchorage, Alaska, and Varying Hare, from the Puget Sound region in Washington. Ernest P. Walker, agent for the bureau, has issued an appeal to the people to protect the rabbits.

**EVIDENCE IS DRUNK**

(Associated Press London Wire)  
NEW ORLEANS, Jan. 11.—Federal prohibition agents were scratching their heads tonight because the jury trying a liquor conspiracy case in federal court today retired to the jury room with sandwiches and a quart bottle of whiskey, produced as evidence, and returned a verdict of acquittal but without the "evidence." Dry agents later reported they found the bottle hidden away in the juror room and that "a thimble-full" of liquor was left in it.

**U. S. NURSES TRAIN BRAZILIANS**

(Associated Press London Wire)  
RIO DE JANEIRO, Jan. 11.—Fifty-two American trained nurses are employed teaching Brazilian women in the tricks of their trade in the hospitals of the city. They were brought here by the Public Health Department at the suggestion of the Rockefeller Foundation Commission.

## TENEMENT SECTION INCUBATOR OF GENIUS

SARAH WOLKIN, JENNIE BERMAN, PHILIP BENOWITZ AND ANNA KALMANOWITZ, FOUR TENEMENT SECTION CHILDREN WHO ARE BEING "GIVEN A CHANCE" TO DEVELOP TALENTS.

By JOSEPHINE VAN DE GRIFT  
NEW YORK, Jan. 12.—Eight hundred children will soon undergo a mental and emotional examination to determine whether there is genius among them.

They are children from New York's crowded East Side—the hot bed which has produced such a motley array of geniuses as Max Rosen, Eddie Brown, Simon Strunsky, Benny Leonard, Irving Berlin and Belle Baker.

If traces of exceptional talent are found among the youngsters, they will be given the best training that the country affords.

Such is the scheme of Chester Teller, executive director of the Stuyvesant Neighborhood House, one of the 100 organizations maintained by the Federation of Jewish Philanthropies.

Teller does not believe that living in cold garrets is conducive to poetry or that dry crusts of bread sharpen the emotional faculties.

"Max Rosen, who was discovered in a barber shop, studying early disadvantages and became a famous violinist," he says, "but how many Max Rosens have gone under from lack of the bare necessities, the world will never know. Now we're going to see if we can't give every talented child a chance."

According to Teller's plan a psychiatrist will examine each child for his mental and emotional qualities, for it takes a due proportion of each to make a genius.

Children who show signs of being embryonic Mitons and Mozarts will then be given the best training that can be secured.

Children who apparently are stupid in certain things but show talent in others will be given a chance to develop that talent.

Children who are hopeless will be allowed to pursue the even tenor of their way without further interruption.

That numerous children with ex-

ceptional talent and not a few real geniuses will be discovered is the confident expectation of Teller. For Stuyvesant House is in the very midst of the crowded East Side where the percentage of genius is exceptionally high.

Meanwhile Sarah Wolkin, 11; Jennie Berman, 12; Philip Benowitz, 11, and Anna Kalmanowitz, 6, are looking out upon the world with an exceedingly cheerful aspect. All are the children of poor families and all have shown talent in their classes at Stuyvesant House.

Sarah makes up marvelous fairy tales and poems "out of her head." Jennie designs wonderful doll clothes and some day she's "gonna have one of those Fifth Avenue shops."

Philip draws "prize fighters sometimes, flowers and animals mostly." Anna Kalmanowitz dances. "Nobody taught me, but when I hear the radio, then things come into my head."

## Science Big Aid In Agriculture

WASHINGTON, Jan. 12.—Many valuable contributions have been made by the United States Department of Agriculture in the last year to scientific and practical agriculture and agriculture Wallace in his annual report to the president. Some of the discoveries are cited in the report.

"Results of research work on animal parasites," it says, "afforded interesting evidence of the practical value of the most conspicuous examples is the discovery that carbon tetrachloride is an effective remedy for the removal of hookworms of dogs. A discovery which has led to the wholesale application of this treatment against hookworms of human beings with great success in many parts of the world. Investigations regarding roundworms of sheep and swine have made it possible to overcome, to a large extent, the enormous losses caused by these parasites."

"A unique, practical method for the prevention of damage to the grape and fruit of Florida oranges and grapefruit by stem and rot during transportation, storage, and distribution has been developed to the stage of commercial application. The economic importance of this reduction of waste of wholesome fruit is readily apparent when it is remembered that these two crops in Florida alone now yield from 12,000,000 to 16,000,000 boxes each year."

"Recent studies of the salts carried in irrigation water have given a somewhat different point of view for the consideration of alkali troubles in irrigated land. In many districts the chief concern of the irrigator farmer is to prevent accumulation of alkali salts in harmful quantities in good land rather than to reclaim salty land for use in crop production. These observations indicate the importance of the irrigation farmer's understanding the character of the soil solution and of using irrigation water in such a way as to prevent the accumulation of excessive quantities of soluble material from the soil."

Soil Facts Made Easier  
"Two different methods have been developed for determining the total quantity of colloidal material in soils and it has been found that colloids constitute a far larger part of the whole soil than previously had been thought. Some of the heavier soils containing from 60 to 70 per cent progress also has been made in determining the properties of the colloids present in different soils. With these facts established it should be possible to gain a more correct insight into the chemical processes of the soil than has hitherto been possible. It is now possible to get a better insight into the nature of the colloids and the new methods are applicable in the study of agricultural soils, of material used for building levees and foundations, of drainage and irrigation conditions, and of geologic formations."

"By modifying the process ordinarily used in the preparation of ammonium phosphate so as to include the use of commercial potassium chloride, as well as phosphoric acid and ammonia, it has been found that a product containing all of the essential constituents of fertilizer, and of corresponding concentration, may easily be obtained. Chemical and physical properties of this material make the new method admirably suited for preparing fertilizer material for transportation. Manufacturing concerns have taken such an interest in this process as to express a willingness to test it out on a commercial scale."

New Laboratory Established  
"A laboratory to develop work on the chemistry of crops was established during the year. There is need for work concerning the influence of environment on the chemical composition of crops, including certain features of fertilization, such as the relation of composition of crop to the time of fertilizer application. Field work on the composition of agricultural crops has been directed chiefly toward what may be termed the quantity viewpoint. The new work is directed more toward the subject of quality. The chemist is now seeking to learn whether or not the quantity of products quantity at the expense of qualitative quality. For instance, it is known that the application of a certain fertilizer, say, sodium nitrate, at a definite time, as one month after sowing, to a crop like corn will increase the yield quantitatively. However, practically nothing is known about quality relations, that is, whether the proteins, vitamins, or mineral components of the corn so fertilized are superior or inferior for animal and human nutrition. The economic value of improvements in quality resulting from this research may exert a marked influence upon future agricultural practices."

"The physical properties of the soil studied at the Arlington experimental

## MOVE TO FOUND CHAIR OF NURSING IS GROWING

That the Graduate Nurses' Association of Virginia is rapidly formulating its plans for raising the \$50,000 with which to endow a chair of nursing at the University of Virginia, in order that young women of the state seeking graduate work in the profession need not go North to get what the South now cannot give is shown by the fact that committees have been appointed and a program outlined. Members of the association serving on the various committees come from all parts of the Commonwealth and are as follows:

Publicity: Miss Rosa VanVort, Richmond; Miss Virginia Thacker, Roanoke; Miss Ethel Webb, Norfolk. Finance: Miss L. Odum, president of the organization, Norfolk; Miss Margaret Cowling, University of Virginia; Miss Martha Bayler, Richmond. Extension: Miss Elizabeth Webb, Richmond; Miss Elizabeth Guiley, Leesburg; Miss T. Hanger, Petersburg; Miss Kate Hale, Danville; Miss Powhatan Stone, Wytheville; Miss Evelyn Hill, Harrisonburg; Miss Nora Spencer, Hammer, Richmond; Miss Emma Harlan, Charlottesville; Miss Blanche Webb, Norfolk; Miss Ethel Smith, Charlottesville; Miss Alice Dugger, Richmond; Miss Florence Black, Richmond; Miss L. L. Odum, Norfolk. Pageant: Miss Nancy Minor, Miss Florence Black, Miss Nora Spencer, Miss Anne Guiley, Miss Ethel Smith, Miss Elizabeth Webb, Miss Florence Bishop, Mrs. S. T. Hanger.

Miss Louise Burleigh, formerly director of the Little Theater League of Richmond, has been engaged by the association to write and produce a pageant showing the development of nursing since the days of Florence Nightingale, with special emphasis on the growth of the profession in the Old Dominion since it received its great impetus from the late Miss Sadie Heath Cabanis, who was a pioneer of the work in this state. Miss Burleigh has already arranged for the production of the pageant in Charlottesville, Danville, Norfolk and Richmond, and details are now being completed for similar presentations in the other leading cities. It is planned to put on the event simultaneously throughout Virginia on May 12, the birthday of Florence Nightingale.

The Graduate Nurses' Association has pledged itself to raise the \$50,000 through its own efforts and although the work has been under way only a few weeks about \$3,000 is already in hand. Miss Agnes D. Randolph, of Richmond, is chairman of the Foundation Fund Committee and she is encouraging members of the association to undertake various enterprises to make money. In response, the Training School of the Sarah Leigh Hospital, Norfolk, has just sent in a check for more than \$200.00 made through the sale of dolls.

Letters explaining the plan of the Virginia Nurses for placing a school of nursing at the University of Virginia have been sent to the presidents of all Southern Nursing organizations. farm, Arlington, Va., and elsewhere with and without the co-operation of other agencies are fast providing a scientific basis for highway design, reducing uncertainty to a minimum and showing a greater degree of economy in highway construction expenditures. As a result of observations made at the Lakes Road, in Illinois, a design for one of the types of highway surface has been formulated, which will reduce the cost by \$1,500 a mile without decrease of strength. The department co-operated with the Illinois Department of Public Works and Buildings in this investigation.

**MOFFETT IN COMMAND**

(Associated Press London Wire)  
WASHINGTON, Jan. 11.—Rear Admiral Wm. A. Moffett, chief of the Bureau of Aeronautics, will command the Navy's polar flight planned for the coming summer. Secretary Denby announced today. All of the aircraft, surface vessels and personnel engaged in the flight will be assigned to him and he will determine for himself whether to be abroad the Shandoo.

**CURTAIN PRODUCTION**

(Associated Press London Wire)  
LYNCHBURG, Jan. 11.—The local branch of the Consolidated Textile Corporation has curtailed production by going temporarily on four days a week. It is expected that the market will enable the corporation to return to normal production within several weeks.

England's national debt in 1914 averaged about 15 pounds per head, but now it is 170 pounds per head.

## Overnight Features

BY THE ASSOCIATED PRESS.

Mutiny of 63 convict miners near Montevallo, Alabama, ends when men come out of pit and surrender to guards.

Charles A. Stoneham, part owner of the New York Giants, is indicted with several others on charges of fraud in conduct of former brokerage business.

Edward B. McLean, Washington publisher, loaned Albert B. Fall \$100,000 late in 1921 but Mr. Fall never used the money and Mr. McLean's checks were returned uncashed. McLean tells Senator Walsh, Montana, Fall confirms McLean's statement and declares he got needed funds from other sources.

Mrs. Edith Burns, companion to Mabel Normand, admits that actress has discharged her, because, she says, she gave information to police about the Dines shooting.

William G. McAduff will avoid any effort to upset the two-thirds rule in the next democratic convention. Daniel C. Roper, said of Washington.

Mrs. Anne Kresge is granted divorce at Detroit from S. S. Kresge, wealthy owner of chain stores.

Body found on coast of Sussex is definitely identified as that of Lawrence B. Sperry, American aviator London dispatch says.

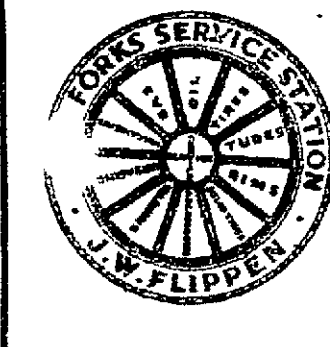

Vassar College physician denies that there is drinking on that campus and declares that most Vassar girls dress sensibly.

Joseph C. Pelletier, deposed district attorney of Suffolk county, Mass., announces his candidacy for election as delegate at large to the Democratic national convention.

Willie Hoppe out scores Welker Cochran at Boston and leads Cochran 1,000 to 848 and title billiard match is to be finished tonight.

Frankie Frisch signed 1924 contract at salary said to be highest ever paid a New York Giants baseball player.

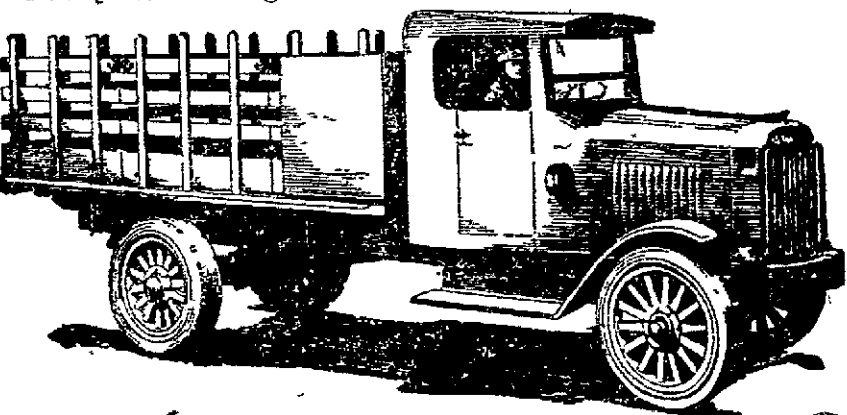

The new income tax blanks are out. They are called simplified because they do not ask how many reindeer you own.
